## BACHELOR OF SCIENCE IN EDUCATION DEGREE REQUIREMENTS IN VOCATIONAL EDUCATION

### OBJECTIVES:

This program is designed to serve those individuals who have technical-vocational goals that are oriented toward public schools, community and junior colleges, technical institutes or adult programs. Students satisfying the requirements under this program and who have sufficient trade or industrial experience required by the Texas State Plan of Vocational Education, may be certified in their area of specialization by the Texas Education Agency.

Upper-division academic credit not to exceed 18 semester credit hours may be granted individuals submitting evidence of relevant work experience in an area of technical-vocational specialization. This experience will be validated by a faculty committee and the Dean of the School. Competency based examinations and/or other evaluation methods will be used by this committee to determine if an individual should be given credit.

### LOWER-DIVISION PREPARATION:

Students desiring to enter this program should meet the general education requirements described on page 15 of the 1976-77 Texas Eastern University catalog and have a minimum of 24 semester hours in one area of technical-vocational specialization at the lower-division level.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS IN VOCATIONAL EDUCATION

1. General baccalaureate degree requirements of Texas Eastern University (see page 24 of the 1976-77 Texas Eastern University catalog).
2. A minimum of 24 semester hours of upper-division approved technical or vocational courses (see technical and vocational course descriptions).
3. A minimum of 18 semester hours of related professional development courses approved by the student's advisor.
4. Additional upper-division electives needed to complete degree requirements.
