What does U-C-F look like in Teaching and Learning?

Understand what your students need are.
  • Mix up and blend together

Communicate formally and informally.
  • Speak to get population, and then break your topic down per sample.

Set your students’ learning experiences up to be flexible.
  • Allow for student input
  • Hold expectations and allow for those to be exceeded
Strength-based Approach to Education
What is Strength-based Education?
The Strengths Perspective

Everybody has these assets that can be built on to help people reach their goals.

**C** = competencies, capacities, courage, character

**P** = promise, purpose, possibility, positive expectations

**R** = resources, resilience, relationships, resourcefulness, resolve, reserves
Focus is on possibilities, rather than problems

<td>• Strengths are identified and utilized to empower students.</td>
</tr>
<tr>
<td>• Students are dependent upon the system; is problem-oriented.</td>
<td>• Students are seen inclusively as holistic beings, inherently integrated with the program.</td>
