UT Tyler Patriot

VOL.X, NO. 1

THE UNIVERSITY OF TEXAS AT TYLER

SEPTEMBER 13, 1982

Enrollment sets record

The nearly 2,400 students enrolled at UT Tyler for the fall 1982 semester sets a new record, according to Director of Admissions Martha Wheat.

This represents a 22.7 percent increase over the fall 1981 registration of 1,957. Mrs. Wheat said that, as of Wednesday, her department had processed 1,007 applications from prospective students.

She attributed the record

enrollment to the activity of the recruiters and to the scholarship program for new students. Mrs. Wheat said, "Any time you have an increase in enrollment, it comes from a team effort." She added that all the recruiters deserve credit for the boost in enrollment.

Mrs. Wheat emphasized that the figures were incomplete and that she expected several more students to enroll before the close of registration Sept. 9.

Nursing program doubles enrollment

The new baccalaureate nursing generic program, approved in October 1979, is in full bloom. The program, in its first semester, has doubled the enrollment of the nursing department, according to Doris Rieman, chairman of the Department of Nursing.

"I feel the reason for the increased enrollment of semester credit hours is due to the number of RN's returning under the old program and the starting of our new baccalaureate program," Mrs. Rieman said.

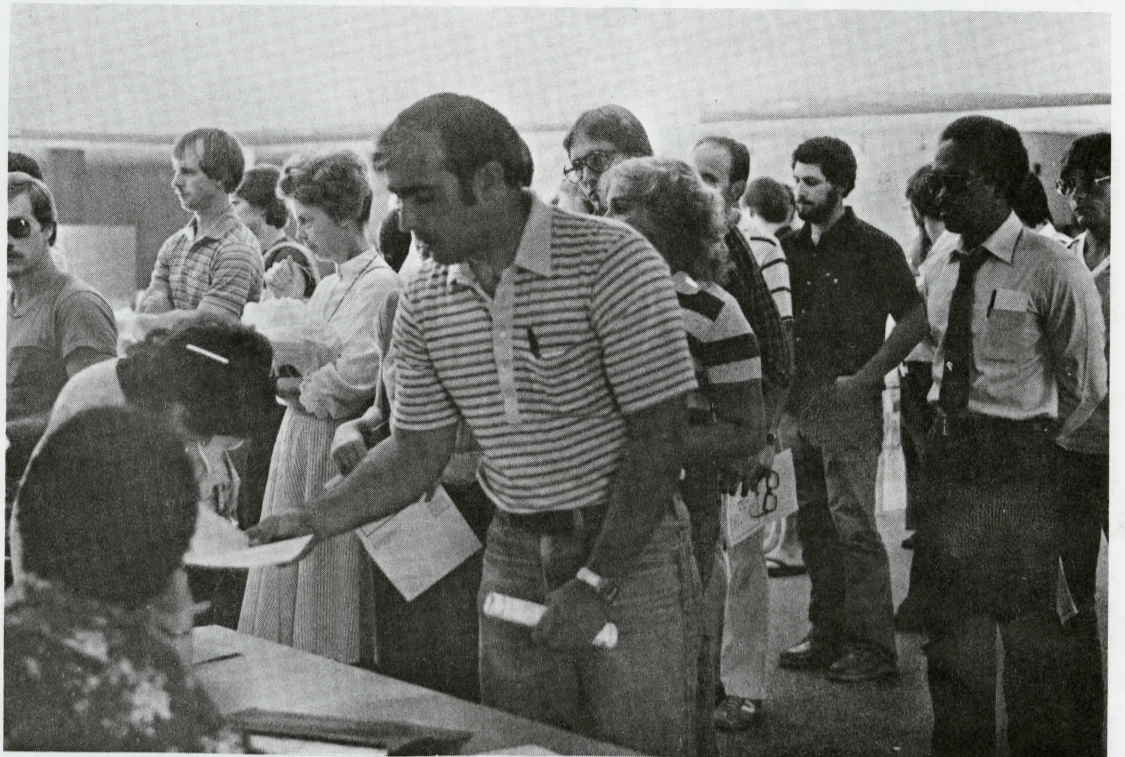

Mrs. Rieman reported that out of the 24 new students, three are males with ages ranging from 20 to 52.

Commuters are a big

part of the UT Tyler enrollment. Students come from Troup, Henderson, Jacksonville, Palestine and Tyler.

Many scholarships were given in the program. Three students received full scholarships from the Good Samaritan Foundation, nine received the Vaughn Foundation Presidential Scholarship in Nursing, two received scholarships from the University Counselor Committee, and one received the Academic Major Scholarship.

Mrs. Rieman said, "I am really excited about the new program and increase in enrollment. We also hope to enlarge our staff by 1984."

REGISTRATION--After long waits students are relieved to finally reach the front of registration lines.

Ticket time today

The University of Texas at Tyler Police Department will begin issuing parking tickets Sept. 13. Vehicles without valid parking permits will be ticketed. Permits are issued during registration and must be placed on the vehicle's lower left-hand rear window.

Temporary permits for students who drive a car other than the one which is registered with the UT Tyler Police Department are available in the Bookstore, the Public Information Office, and in the Physical Plant Building located on the corner of Patriot Drive and Campus Drive.

Tickets will also be issued for speeding, park-

ing on the grass and parking in no-parking zones. Students should avoid parking in areas that are not specifically designated for student use. All parking tickets are \$5, payable to the Business Office. Tickets for moving violation are payable to the City of Tyler.

Larry Roberts, Chief of the UT Tyler Police, said

that his department is always willing to be of service to students, faculty and staff. These services include "jumping" dead batteries, retrieving keys that have been locked in

cars, and assisting those who have car trouble. Chief Roberts asked that students observe the speed limits, especially on curves.

Little Symphony returns to Tyler

The Texas Little Symphony, one of America's outstanding chamber orchestras, will perform in Tyler at 8 p.m. Thursday, September 30. The concert is the opening program in the 1982-83 Cultural Arts Series presented jointly by Tyler Junior College and The University of Texas at Tyler.

The concert will be in Wise Auditorium on the TJC campus.

Students of both TJC and UT Tyler will be admitted at the door by showing a current ID card of the college or university. Additional tickets may be purchased at \$5 for adults and \$2 for students in the Student Activities Office, room III, in the University Center.

Employees of the university may pick up tickets in the Public Information Office, room 202 of the Administration Building.

The 34 musicians that comprise the membership of the Texas Little Symphony form the elite core of the Fort Worth Symphony Orchestra. Conducting the orchestra will be John Giordano.

For the concert, Giordano has selected three works. The performance will begin with the Brandenburg Concerto No. 4 by J.S. Bach. The second selection will feature Texas Little Symphony trumpeter Steven Weger in a performance of the Hydn Trumpet Concerto. The concert will conclude with a performance of the Symphony No. 4 in B Flat Major by Beethoven.

TJC and UT Tyler jointly presented the Symphony in the spring semester and immediately booked a return engagement. An opera is planned this spring in the Cultural Arts Series.

John Giordano conducts Texas Little Symphony

Editorials

A message... from the President

With the beginning of his second year at UT Tyler, President George F. Hamm is confident that the future is bright for the university.

"The future is bright for UT Tyler. Summer enrollment was up nearly 40 percent and fall enrollment is up 25 percent.

"Community support during the past year has been reflected notably by the commitment of the Development Board to generate scholarships, by the generosity expressed through donations, and by the enthusiasm of the faculty."

Addressing the faculty and staff in August, Dr. Hamm extolled the faculty for accepting the challenges and invitations to be involved in the university during the past year.

"Our impressive enrollment growth last spring, both summer terms and this fall semester all reflect the faculty's commitment to UT Tyler, and to the greater community as well. It has not gone unnoticed.

"UT Tyler should be the most powerful intellectual force in this entire area. It should reach out to shape society, not follow societal trends.

"As the new year begins, we must make a serious commitment in the area of curriculum development to insure that the appropriate educational opportunities are afforded to all those to whom UT Tyler is obligated.

"Today's UT Tyler must be different from last year's and even from last summer's. It must respond even more creatively to societal changes, to shifts in culture and to the pressing challenges of our civilization and our times.

"Not only must we continue to bring others to the campus, we should address the educational concerns of those whose lives are uniquely affected by the times as well."

Salutations to the students:

I am reminded of the letter that arrived at my desk last week from a recent graduate, who is now a law student, who expressed his appreciation for the quality education he received at UT Tyler.

You students are to be commended for having made a commitment to expand your intellectual horizons and for deciding to be a part of a quality university.

Best wishes for a great year,
Dr. George F. Hamm,
President, UT Tyler

18 cubic ft. refrigerator, portable. Cost \$135 new, asking \$100. Call 581-6482 after 6 p.m.

New staff at UT Tyler

Ten new members have been added to the UT Tyler faculty and staff this fall, with another new contract effective in January, according to Annette Tapp, secretary of public information.

The School of Business Administration added Robert B. Dallin, Jr. and Gus A. Gordon to its staff. Assistant professors Thomas Pittman and Stephen Rainwater joined the computer science department.

The School of Education and Psychology gained James A. Schwane. The journalism faculty picked up assistant professor John Robinson and Doris Bowman, coordinator of student publications and public information. Associate professor Dr. Davor Jedlicka will teach sociology.

Linda Campbell and Dr. Millie Munoz, assistant professors of nursing, joined the expanded nursing program this fall. Linda F. Southerland will begin work in the program in January.

Seminar, 6 to 9 p.m., BUS
152.

Child care program begins at UT Tyler

A child care program opened August 30 to children of UT Tyler students on campus.

The program offers three options including full-day kindergarten from 8 a.m.-3:15 p.m., plus extended day activities from 3:15 - 9:45 p.m.

The child care program will provide an educational program for preschool children whose parents attend the university, professional experiences for teacher education majors, and an extended program for preschool and elementary children after 3:30 p.m.

The extended program is open to children up to ten years of age.

Mona Everett has been appointed child care instructor for the educational program during the day.

Applications may be made for the pre-kindergarten and kindergarten programs by calling 566-1911.

The Department of Physical Education is directing the extended day activities that begin at 3:30 p.m. with Mike Airy as administrator.

CHILD CARE CENTER--Genevieve Neyland-Scholles and her friend, Todd, are two of the children who enjoyed a day in the new UT Tyler Daycare Campus Center.

Director foresees jump in computer center use

Steve Wilson, director of computer services, who started as a programming analyst in Data Processing in 1976, expects increased use of the Academic Computer Center located in Room 101 of the Business Building due to the increased enrollment in the fields of computer science and business administration. According to Wendell Hewett, chairman of the department of management and marketing, School of Business credit hours have increased 35 to 40 over last semester.

According to the Computer Center User's Guide, the Academic Computer Center, which was opened last September, "may be used by all faculty and students requiring computing resources in conjunction with academic programs or approved research."

Before a person or a group of persons is authorized to use the micro-computer lab, a Micro-Computer Request form must be submitted to a member of the Computer Advisory Committee. Upon approval, Micro-Computer Authorization cards will be issued to the requestor.

Wilson who holds 1973 degree from West Texas State University in the fields of Computer Science and Data Processing points out that the center has 20 micro-computers, 4 printers, 16 cathode ray tubes, 9 keypunches, and an IBM 3780 RJE terminal (printer/card reader) available 8 a.m. to 9 p.m.

Monday through Thursday, 8 a.m. to 5 p.m. Fridays, 9:30 a.m. to 6:30 p.m. Saturdays, and 2 p.m. to 6 p.m. on Sundays. Various manuals and publications are also available to be checked out or for reference.

Director Wilson, who was promoted to the position three years ago is responsible for maintenance and operation of all equipment and the supervision of six lab assistants, two programmer/analysts, two control clerks, and one programmer employed by the center.

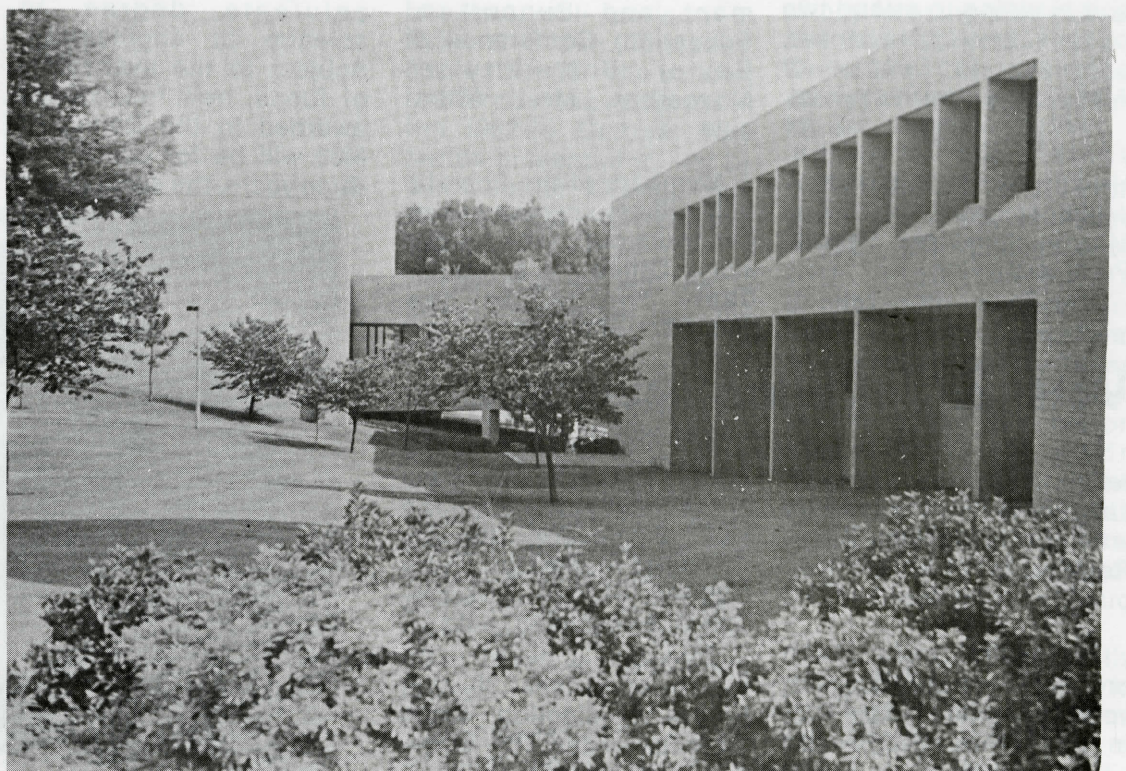

The Computer Center is used extensively by various university schools and administrative offices. In the past marketing classes have tabulated survey results, management classes program simulation games, and computer science classes gain practical experience.

In the 81-82 academic year computer services were purchased for 55,000 dollars from the Texas Engineering Experiment Station of Texas A&M. Another 8,000 dollar contract was awarded to UT Health Science Center at Dallas to offer computer services through a remote interactive terminal arrangement.

The mainframe configuration which consists of the RJE terminal, 8 keypunches, and one LA-36 DECwriter Terminal is used in conjunction with the Texas A&M computing network.

News Briefs

CRISIS CENTER

Training sessions for internships and volunteer work at the East Texas Crisis Center will begin Tuesday, according to Linda Johnson, public education and volunteer coordinator.

The training sessions are scheduled for Tuesday, Sept 14 and Thursday, Sept 16 from 7 to 10 p.m. at the Hawes House, 836 S. College. The third session is scheduled for Saturday, Sept 18 from 9 a.m. to 5 p.m. on the UT Tyler campus, ADM 264.

FLAG FOOTBALL

Intramural flag football registration will continue through Monday, Sept 20 in the Student Activities Office, UC 111, Jerry Alexander, student life coordinator, said.

Each team will consist of eight students. Alexander said games will begin shortly after the sign-up is completed.

MUSIC ENSEMBLE

A group of UT Tyler vocal and instrumental students

has been formed to promote the school.

The ensemble, under the direction of Dr. R. Kenneth Muckleroy, will perform for civic groups.

TENNIS LESSONS

Ken Bryson, UT Tyler student and experienced tennis instructor, will give free tennis lessons beginning this month, according to Jerry Alexander, student life coordinator.

Morning and afternoon lessons are planned, but an exact schedule has not been set, he said. Interested students may sign up in the student activities office, UC 111, he said.

PHI THETA KAPPA

Phi Theta Kappa, national junior college scholastic fraternity, will open an alumni chapter here this fall, Director of Admissions Martha Wheat, announced.

Students must have been previous PTK members at a junior college to qualify, Mrs. Wheat

said. An initiation and installation are being planned.

Interested students should sign the list in the Admissions Office, ADM 215, to be contacted for further information, Mrs. Wheat said.

BIBLE STUDY

The Campus Bible Study Fellowship, an approved student organization, will meet Wednesday at 12:15 p.m. in HPR 126 for its organizational meeting of the 1982-83 academic year.

Dr. David Riddle, associate professor of chemistry and faculty sponsor of the group, stated that membership is open to all interested members of the campus community—students, faculty, staff and administration.

The group meets weekly for the study and discussion of the Bible in order to better understand the truths it contains.

For more information contact Dr. Riddle on campus in HPR 113 or at extension 206.

Media audio-visual equipment available

A variety of audio-visual equipment is available for classroom use through Media Services, located on the first floor of the Robert R. Muntz Library.

Items available include audio tape player-recorders, filmstrip projectors with audio, motion picture projectors and video monitor/receivers.

All equipment can be reserved for set-up in a specified classroom at designated times. A 24-hour notice is required for equipment reservation. A telephone call to the Media Services office is all that is needed for this service, Winston Green, media supervisor, said.

Brochures and pamphlets can be designed upon request for use by UT Tyler's departments or programs. Overhead transparencies, posters and small signs can be made to individual specifications.

The UT Tyler Media Center offers faculty members the opportunity to videotape class

meetings or projects on location or in the Center's modern video studio.

Media Services maintains a library of over 5,000 audio-visual software items that can be helpful in supplementing classroom teaching. These items are cataloged according to subject matter. Up-to-date catalogs are in each dean's office and in the Media Library, LIB 144.

Audio tapes, slides, filmstrips, phonograph records, movies and video cassettes can be used in the Media Center's Independent Learning Center by students and faculty, or checked out by faculty for classroom use.

Four independent, self-paced, non-credit courses offered in the Learning Assistance Lab are Accelerated Reading, Reading Skills for the Advanced Student, Writing Workshop and Study Skills for the Advanced Student. The coordinator's hours are Monday through Thursday, 10 a.m. to 3 p.m.

Minority graduate NSF scholarships available

The National Research Council will again advise the National Science Foundation in the selection of candidates for the Foundation's program of Minority Graduate Fellowships. Panels of eminent scientists and engineers appointed by the National Research Council will evaluate qualifications of applicants. Final selection

of Fellows will be made by the Foundation, with awards to be announced in March 1983.

The NSF Minority Graduate Fellowship Program is open only to persons who are citizens or nationals of the United States at the time of application, and who are members of an ethnic minority group under-

represented in the advanced levels of the Nation's science talent pool—i.e., American Indian, Native Alaskan (Eskimo or Aleut), Black, Mexican American/Chicano, Puerto Rican, or Native Pacific Islander (Polynesian or Micronesian).

Eligibility is limited to those individuals who, at the time of application, have not completed more than 20 semester hours/30 quarter hours, or equivalent, of study in any of the science and engineering fields listed below following completion of their first baccalaureate degree in science or engineering. Subject to the availability of funds, new fellowships awarded in the Spring of 1983 will be for periods of three years, the second and

third years contingent on certification to the Foundation by the fellowship institution of the student's satisfactory progress toward an advanced degree in science and engineering.

These fellowships will be awarded for study or work leading to master's or doctoral degrees in the mathematical, physical, biological, engineering, and social sciences, and in the history and philosophy of science. Awards will not be made in clinical, law, education, or business fields, in history or social work, for work leading to medical, dental, or public health degrees, or for study in joint science-professional degree programs. Applicants will be judged on the basis of ability. The annual stipend for Minority Graduate Fellows

will be \$6,900 for a twelve-month tenure with no dependency allowances.

Applicants will be required to take the Graduate Record Examinations designed to test aptitude and scientific achievement. The examinations, administered by the Educational Testing Service, will be given on December 11, 1982 at designated centers throughout the United States and in certain foreign countries.

The deadline date for the submission of applications for NSF Minority Graduate Fellowships is November 24, 1982. Further information and application materials may be obtained from the Fellowship Office, National Research Council, 2101 Constitution Ave., Washington, D.C. 20418.

Student Foundation Recruitment campaigns begin this month

The Student Foundation begins its recruitment campaign this month, visiting nine area junior colleges and planning to attend two conferences in November, according to Director of Admissions Martha Wheat. Junior colleges to be visited are Angelina, Henderson County, Jacksonville, Kilgore, Lon Morris, Navarro, Panola, Paris and Tyler.

The Foundation will attend the Junior College

Student Personnel Association meeting at Austin and the 1982 CASE (Council for the Advancement and Support of Education) Conference at Baylor University in November, Mrs. Wheat said.

Members of the Foundation will also conduct campus tours out of the Admissions Office on a regular basis throughout the semester, she said.

Voter registration Thursday

The UT Tyler Student Association and the Tyler League of Women Voters will co-sponsor Voter Registration Day on campus Thursday, Sept. 16.

Members of both organizations will register voters from 9 a.m. to 1 p.m. in the University Center

and from 5 to 7 p.m. in the Business Building.

All students, faculty and staff members who have not registered to vote in the Nov. 2 election are encouraged to register, Laura Hughes, Student Association vice president, said.

"Voters must be registered at least 30 days before the election, which includes races for governor, attorney general, senator and state representative," she said.

REGISTRATION OVER—Students relax in the University Center following a busy day standing in long lines.
