I. Action by House Appropriations Committee

In a meeting late Thursday night, April 24, 1975, the House Appropriations Committee considered the Tyler State College biennial request and took official action on it which resulted in the approval of all four buildings and additional operating funds for the institution.

The Thursday night action taken by the Appropriations Committee does not mean that final approval of the entire house bill has been effected, but it does mean that our portion of the bill has now been officially reviewed and left at the level which we requested. Further, it means that any change in the committee action, at any time before the completed house spending bill is approved, will require formal action by the committee to reconsider. This, of course, is another big step for us in the appropriations process.

Each of you should know that Representative Bill Hollowell of Grand Saline, Representative Roy Blake of Nacogdoches and Representative Fred Head of Athens were all very helpful in assisting with Tyler State's appropriations request. All of these representatives are members of the Appropriations Committee. I sent a telegram of appreciation to each of these men Friday from the board and administration.
