? THE QUESTION BOX ?

? QUESTION: Are the mail drawers located just outside the University Center for use by employees and students or strictly for university mail? ?

? ANSWER: Business Manager Wayne Criswell says the mail drawers outside the university mail room may be used for personal outgoing mail as well as official university mail. However, this practice is not encouraged. Also, this mail is worked last which means in most cases personal mail will reach the Tyler post office quicker if taken to an official post office collection box. ?

TEU STUDENTS TO CONDUCT EVALUATIONS

Under the supervision of faculty, students at Texas Eastern University are conducting evaluations of children and adults who are experiencing learning difficulties.

Evaluations are done in conjunction with course work in learning disabilities, reading, health and physical education, and psychology offered at the university.

In an effort to provide positive direction for academic planning, assessment is based on observation, history data and clinical tests. Results are communicated to parents and suggested intervention techniques are provided for school personnel upon the parent's request.

Requests for additional information and/or appointments should be directed to Dr. Mac R. Moseley. Appointments will be scheduled through the spring semester in the order in which they are received.
