To: Board of Regents, Tyler State College  
From: James H. Stewart, Jr.  
Subject: Administrative Notes  

I. Campus and Building Committee Meeting - August 28, 1975  

Although you have been notified through the official notice sent to the Secretary of State, I want to emphasize that the Campus and Building Committee is very interested in inviting all members of the board to be present for the architectural interviews on Thursday, August 28, 1975 beginning at 8:00 a.m. A copy of the schedule of interviews is enclosed for your information. You will note that interviews have been arranged with sixteen firms and that each session will be thirty minutes in length.

II. Tyler City Commission Action, August 19, 1975  

An excerpt from the August 20, 1975 issue of the Tyler Morning Telegraph in which the Tyler City Commission meeting of August 19, 1975 was reported is enclosed for your information. From this story you will observe that the Tyler City Commission authorized the city staff to proceed with advertising for bids for the improvement of Old Omen Road. The action taken relative to McDonald Road is also very significant to the university and I am pleased that the city has chosen to make improvements on this traffic artery since it will be of significant benefit to the institution. Excellent progress is also being made pursuant to the relocation of Calloway Road. City Commission action is expected on this matter in the near future.

III. Comments from Summer Graduate  

As you are aware, I like to occasionally pass on written comments received from students. The attached alumni form which was recently completed by Department of Public Safety Officer Preston Wayne Hunt of Tyler, Texas, who finished his degree work during the summer just ending, contains information in which I feel you will be interested. I call your attention primarily to the section on the form entitled "Additional Comments".
I know each of you will have a good feeling upon reading Mr. Hunt's comments and knowing that we have this sort of pride and esprit de corps being established in the minds of our students and graduates.

IV. Report from Resident Engineer

Attached is a report from our director of physical plant and resident engineer for the week ending August 22, 1975.
