6. Student Sickness and Accident Insurance

It is common practice for colleges and universities to provide a sickness and accident insurance program for students and their dependents on the basis of allowing their students to voluntarily purchase such coverage. Consistent with this practice, our student life area has investigated the possibilities open to Texas Eastern University students. Upon evaluating the matter it was decided to draw specifications for a sickness and accident insurance plan for Texas Eastern University that would be desirable for our students.
Based upon the TEU specifications, several insurance companies responded to our request for bids and submitted proposals for coverage. After reviewing all the policies submitted by various companies, it has been concluded that the Justice Life Insurance Company of Dallas, Texas can provide the best coverage for Texas Eastern students.

The Justice Life Insurance Company is preparing to implement coverage for our students beginning with the 1976-77 academic year. Although there is no contractual agreement or obligation between the university and the insurance carrier, it is felt that the university should insure that the insurance carrier providing coverage for students is a reputable firm and can provide coverage which will be beneficial to our students. Additional information about the Sickness and Accident Policy and the Accident Policy developed by the Justice Life Insurance Company for Texas Eastern University students is provided in Attachments F and G.
