A New Stimulant--Among European novelties it seems that a new stimulant has appeared, which, if the accounts received of it are true, promises to contest the precedence with opium and tobacco. It is the dried leaf of the erythroxylon cocoa, a Peruvian plant, which, when chewed in small quantities, gives rise to a gentle nervous excitement, acting at the same time (it is claimed) as an aid to digestion. The dose required to produce this effect, is from four to six grains. Its power to increase the heart's action, is said to be twice as great as that of coffee, and four times that of tea. Under its influence, a student of Milan testified that he was enabled to study forty hours without cessation, and without afterwards feeling any inconvenience from the experiment. In South America it is largely used by the natives, who sometimes subsist on it for days, with no other food. When taken carelessly in unusual quantities, it causes fever and delirium. How far this novelty will come into use, or what unknown mischiefs it is destined to work, remains to be seen.

Married life.--A newly married pair are like two travelers in an unknown country--fresh views of each other's dispositions are opening out before them every day, some beautiful, some unsightly, and mostly unexpected. A breeze occasionally springs up which may either enliven the journey by clearing the atmosphere, or dampen the ardor of the excursionists by ending in a thunder storm. If a couple, however, have ordinary judgment, they will so arrange or dovetail their likings and dislikings as to jog on together agreeably on the whole. The cant of "incompatibility of temper" is, for the most part, the excuse of knaves and fools.

NATCHEZ DAILY COURIER, January 11, 1861, p. 4, c. 4
Three things that a woman can't do. There are three things that a woman can't do. First, she can't sharpen a pencil. Give her one and see. Mark how jaggedly she hacks away every
particle of wood from round the lead, leaving an unsupported spike of the latter, which breaks immediately you try to use it. You can almost forgive the male creature his compassionate contempt, as chucking her under the chin, he snatches it from her awkward paw, and rounds and tapers it in the most ravishing manner for durable use. I wish to hear no more on that point, because, when I once make up my mind, "all the Kings men" can't change it.

Well then, Secondly. A woman can't do up a bundle. She takes a whole newspaper to wrap up a paper of pins, and a coil of rope to tie it, and it will come undone at that. When I go shopping—which is sometimes my hard lot to do—I look on with the fascinated gaze of a bird in the neighborhood of a magnetic serpent, to watch clerks do up bundles. How the paper falls just into the right crease, how deftly they turn it over and tuck it under, and tie it up, and then throw it down upon the counter as if they had done the most commonplace thing in the world, instead of a deed which might—and faith, does—task the ingenuity of "angels!" It is perfectly astonishing.

Thirdly—I may allude to the fact that women cannot carry an umbrella; or rather to the very peculiar manner in which they perform that duty; but I won't. I scorn to turn traitor to a sex who, whatever may be their faults, are always loyal to each other. So I shall say, as I might otherwise have said, that when they unfurl the parachute alluded to, they put it right down over their nose; take the middle of the side walk, raking off men's hats and women's bonnets as they go, and walking right into the breakfast or some unfortunate sight, with that disregard of consequent gasp which, to be understood, must be felt, as the offender cocks up one corner of the parachute and looks defiantly at the victim who has the effrontery to come into the world and hazard the whalebone and handle of her "umberill!" No, I won't speak of anything of the kind; besides, has not a celebrated writer remarked that, when "dear woman is cross, it is only because she is sick." Let us hope he is right. We all know that it is not the cause of man's crossness. Give him his favorite dish, and you may dine off him afterwards, if you want to.

NATCHEZ DAILY COURIER, January 19, 1861, p. 4, c. 1
There was a gay assembly at Masonic Hall on Tuesday evening, the eighth of January. It was a "Calico Ball" given by the young men. We looked in during the evening, and found a goodly number of votaries of the dance, threading its giddy mazes, to the discourse of good and enlivening music. What we took especial notes of, was the improved appearance of the ladies in their "calico," far outvieing the more costly and extravagant toilet of silk and satin. Never to our eyes did the fair creatures present so lovely an appearance.

This is a move in the right direction. The idea could be well improved by having a party in which all, both male and female should be attired in homespun. Who will start this ball.

Sallie and I,
by Annie M. Duganne.

We're in the market—Sallie and I—
Are there no bachelors wanting to buy?
None who have courage enough to propose;
None who have wisdom enough to disclose
That they've shirts without buttons, and pants without straps.
They have vests with fringed edges, and coats with torn flaps,
And their last winter's hose are minus of toes,
And their uncovered heels are like to get froze,
For lack of such bodies as Sallie and I
To attend to the wants and the woes we espy?

We are no coquettes—Sallie and I—
So free-loving dandies need not apply—
Beauty's admirers or Wit's devotees
Need not approach for we never shall please;
But we know of a circle whose names are untold
In Fame's shining temples or mansions of gold,
Whose lives without spot, or blemish, or blot,
Have won them the honor the world giveth not--
For such, worthy bachelors, Sallie and I
Still wait in the market--will ye not buy?

Unsullied Virtue, Sallie and I,
Only can offer to those who apply--
Hearts warm and loving we've striven to blend
With hand ever ready in need to befriend;
And our lips seldom gossip, our feet rarely roam
Beyond the charmed precinct of childhood's sweet home--
And to wash, brew or bake, small splutter we make,
For "Quiet and Thrift" is the motto we take--
Oh! rare are such housewives as Sallie and I;
Lonely old bachelors, will ye not buy?

We're in the market--Sallie and I--
Shall we be left in the market to die?
Swiftly youth's fleeting years over us go.
(2 lines lost in crease)
Too long left unkissed, will be wrinkles instead--
And our hearts, like the May, will forget to be gay
If love's fragrant blossoms ne'er dawn on our way;
Such is the petition, Sallie and I
Offer to bachelors--pray, will ye buy?

NATCHEZ DAILY COURIER, March 26, 1861, p. 4, c. 4
T. C. Reddy begs to announce to his numerous customers, that he is now prepared to exhibit for inspection the most varied and distingue stock of dress goods ever imported to Natchez, comprising an endless variety of Grenadine, Berage, embroidered in gold and colors, suitable for the evening, carriage and promenade robes, together with a choice collection of traveling goods for suits, the whole forming a magnificent array which the most fastidious cannot fail to appreciate. In the following will be found a list of the greatest novelties of the season:
Amount of Absence Proper for Husbands. Miss Maloch says, "A lady of my acquaintance gives it as her sine qua non of domestic felicity, that the 'men of the family should always be absent at least six hours in the day.' And truly, a mistress of a family, however strong her affection for the male members of it, cannot be acknowledge that this is a good boon. A house where 'papa' or the 'boys' are always 'pottering about,' popping in and out at all hours, everlastingly wanting something, or finding fault with something else, is a considerable trial to even feminine patience. And I beg to ask my sex generally--in confidence, of course--if it is not the greatest comfort possible when, the masculine half of the family being cleared out for the day, the house settles down into regular work and orderly quietness until evening? Also, it is good for them as well as for us, to have all the inevitable petty domestic 'bothers' go over in their absence; to effect which ought to be one of the principal alms of the mistress of the family. Let them, if possible, return to a quiet, smiling home, with all its small annoyances brushed away like the dust and cinders from the grate--which, en passant, is one of the first requisites to make a fireside look comfortable. It might be as well, too, if the master himself could contrive to leave the worldly mud of the day at the scraper outside his door."

Mrs. Myra Clark Gaines. Mrs. Myra Gaines is thus described, as she appeared at a late Presidential levee, leaning on the arm of a young gentleman, a relative of her family: Her figure is short and slight; her weight, perhaps, one hundred pounds. She wore a Quaker colored watered silk dress, cut low over a full bust; the very short sleeves revealed a finely proportioned and fair white arm, that would have graced the belle of the assembly. Though her age is about fifty, no one would estimate it at over thirty-five. She wore bright gold bracelets upon her wrists. Her hair, which is black and glossy, was confined in a netting of gold lace, and two long bright curls fell one upon either shoulder. Her eyes are black, restless, and expressive. Two small ostrich plumes of white and blue were partially concealed in the dark folds of her hair. Her step is elastic, her manner graceful. She is very conversational with her acquaintances, and her countenance indicated unusual intellectual ability. Thus let our readers form a conception of Mrs. Gaines, as, with a white camellia upon her bosom, she glided round and round amid the gay and happy throng in the great East room of the President's mansion.

A patriotic suggestion. The suggestion thrown out in the following communication of Dr. Schuppert will commend itself to the patriotism of every woman, young and old, in the State:

To the Editors of the True Delta:

Dear Sirs: War seeming to be inevitable, I would suggest an appeal to the well-known patriotism of the ladies of this city and the country at large, to furnish the military stores with an implement of great importance to the active surgeons of the army--we mean "charple," [charpie?] or picked lint, of which there are not fifty pounds to be found, even if you would buy out all the drug stores of the city of New Orleans. The lint, which is commonly used as a surrogate for dressing wounds, does not come up at all to the purpose it is required for in actual warfare; besides, it is a costly article. The charple, as used in the French and German armies, is prepared out of old worn-out shirts and sheets, which are commonly thrown away. We would, therefore, say: "Save the pieces;" cut them in squares of 4 or 5 inches, pick them, and the required article is prepared. If it is sweet to bleed for the country, it is not less sweet to know that the wounds will
be dressed properly; moreover, by the handwork of our mothers and sisters.

Respectfully,  

M. Schuppert, M.D.

NATCHEZ DAILY COURIER, April 30, 1861, p. 4, c. 1
Clothing for the Volunteers. Patriotic ladies of this city were busy last week in making up clothing, flannel shirts, &c., for the Natchez Fencibles. A large chest filled with such articles went off Sunday night in charge of Corporal G. W. Myers, who left on the Natchez with some seven or eight others to join the Fencibles at Jackson.

We learn that the ladies will still continue their generous and needful efforts for the volunteers now rapidly enlisting for the Adams Light Guard. They ask contributions from our citizens of flannel, check, socks, towelling [sic], and every article indeed that can be made up for soldiers' use. Any (illegible) information as to the articles needed. Let the wishes of the noble women of Natchez be at once responded to.

Breakfast for Volunteers. It was known on Thursday last that six hundred troops would pass this way going North on Friday morning. The ladies of Oxford at once determined to give them a breakfast. By daylight that morning a large assemblage of men, women, and boys, and servants collected at the depot. A fine breakfast consisting of coffee, bread, meat, cakes &c., was spread upon the platform. At fifteen minutes to six the regular train came up with three companies on board, and two hours later an extra train brought up twelve cars full. There was an abundance to eat for them all. The ladies threw the soldiers any quantity of bouquets, which were received with that courtesy the Mississippi soldier knows how to show.--Oxford Mercury, 30th ult.

Correspondence. Camp Life at Corinth. Extract from a letter dated "Camp Clark," Corinth, Miss., May 27, 1861. ... One of the most important features of our camp life, is the religious service every Sabbath--usually well attended by citizens and ladies. All--regardless of creed--then join in one chorus, to sing the praises of one God, beneath the [line lost in crease]. Noon is set apart for parade drill, review and inspection. There have been several military balls given by various companies of the regiment, all of which have been brilliantly attended, and eminently successful. ... P.A.B.

... Self-sacrificing noble-minded, warm-hearted women have been for weeks sewing and working for the various Companies. Neglectful of customary pleasures, and almost of household duties, they have deemed it their proud privilege to work for the defenders of their homes and firesides. But they cannot work and contribute too. They cannot make bricks, and find the straw also! They are now comparatively idle for want of material to work upon. ...

A True Southern Woman. The following letter, says the Norfolk Day Book, from the wife of one of the Macon county, Georgia volunteers, addressed to her husband, who is encamped in this vicinity, expresses the true toned sentiment that animates the daughters of the South in the present crisis.

Hawkinsville, GA., May 13, 1861.
My Dear Husband: All are well at home, and I am glad to tell you so. Sometimes I want you at home, but when I think of the cause of your absence I am perfectly resigned. I am of the opinion that the war will not last longer than six months, from the lights before me; but should the twelve months for which you are enlisted expire, and the war still continue, I shall not expect to see you at home. I have resigned my claim on you to your God and your Country. Think not of ease and pleasure, until the enemy of your home in the Sunny South is made to submit, and Abe Lincoln is forced to give us (all we ask) our rights. When this day dawns, then return, and receive from your wife the smiles and tender cares to which you and all other brave soldiers are entitled. Be a brave soldier. Nobly face the enemy. For every ounce of blood in your body give to the enemy once balls. Look to your God in the hour of danger. I believe he is on our side; and with him as your leader, who dare oppose? Many prayers are sent to Heaven in your behalf. I am proud to say my husband is a soldier; then think not that I am sad. I ask you not to return home until the war is ended. God bless you and your company, and send you safely home to your kindred and friends.

B.L.H.

A bottle of essence of Jamaica ginger will be found a pleasant and healthful companion to the soldier's canteen, a corrective of bad water, a preventive of diseases arising from change of water, and in all respects better than alcoholic stimulants. Think of this, mothers, wives and sisters, in filling up the outfit and farewell tokens for the departing volunteer.

A Brave Lady: Accompanying the Roman Light Guards, from Georgia, who arrived at Lynchburg on Wednesday, was the wife of the gallant Captain, who has determined to share with her husband, to whom she has been united in marriage only a few weeks, all the dangers and privations of the war. She was armed to the teeth, carrying in a belt around her waist a very formidable bowie knife and a pistol, which she declared would be used whenever occasion offered, and that she felt herself able to use them most effectually. Her husband, Capt. Magruder, is a native of Virginia, and is a cousin of Col. S. Bankhead Magruder, of the Virginia Artillery service.

The Ladies Casting Cannons. "Aunt Rosie," of Holly Springs, and a number of other ladies of that beautiful city, by invitation of the proprietors, visited the Iron Foundry there, to assist, on the 30th ult, in casting the first cannon at that foundry. After they had moulded [sic] the cannon, they christened it "Woman's Defense," and gloried in their achievement; after which they were invited into an adjoining shop, fitted up as elegantly as a lady's parlor, where, upon one end of a long table, were piled numerous cannon balls, (cast at the same foundry,) and upon the other end was displayed a collection of bottles, filled with sparkling champagne. The party drunk to the health of their "Woman's Defense."
Holly Springs foundry is now regularly turning out cannon and balls of various sizes. Should we not procure from there a hundred or so six-pounders for our cannon? "Put the ball in motion" by subscription, and we'll give our mite. We have the powder, let us have the balls. The cannon has disappeared from the shelter--but we know where it is. It can easily be had in time of need.--Oxford Intelligencer.
Ladies Military Aid Association.

Natchez, June 17, 1861.

In pursuance of a public call, a meeting of the ladies of Natchez and Adams county, was this day held at the Institute Hall, for the purpose of organizing a society, to aid in the clothing of our volunteer soldiery.

On motion, Mrs. Wm. J. Minor was called to the Chair, and Mrs. E. F. Shields appointed Secretary of the meeting.

It was then moved and passed, that a Committee of five be appointed by the Chair to draft a permanent Constitution for the body, and also to nominate officers.

Mrs. Volney Metcalfe, Mrs. Percy, Mrs. John P. Walworth, Mrs. B. Butler and Mrs. Bennett were appointed said Committee.

After a brief absence they returned, and reported the following Constitution, which was unanimously adopted, to-wit:

The ladies of Natchez and Adams county, willing and ready in their proper sphere to contribute in the present juncture to the defence [sic] of the country, and more particularly to aid and assist by every means in their power, the patriotic volunteers of this city and county, who have entered, or hereafter may enter, the public service against the common foe; and feeling more especially the need of some fit and adequate organization for the making of suitable uniforms and clothing for such volunteers, hereby agree to form a permanent Association, of the name and under the Constitution following:

1st. This Association shall be called "The Ladies' Military Aid Society of Natchez and Adams County; its members shall consist of such ladies of the city and county as shall sign this Constitution; the officers shall be a President, two Vice Presidents, a Secretary; a Treasurer; and an Executive Committee of Sixteen to be elected by the Association.

2nd. The President, or in her absence, either of the Vice Presidents, shall convene, and preside at all meetings of the Society; and in the absence of both the Presidents and Vice Presidents, any member thereof may for the time being, be called to the Chair.

3rd. The Secretary shall record in a book, to be provided for that purpose, the resolutions and proceedings of the Society, and furnish them for publication when thereunto required.

4th. The Treasurer shall keep an accurate account of the receipt, disposition and disbursement of all monies and materials donated to or otherwise obtained for the uses of said Society, and of all uniform clothing and accoutrements that may be made and given out, as hereinafter provided.

5th. The Executive Committee shall, with the aid of the Treasurer, receive and collect all money and materials that may be given or furnished for the object of the Society. It shall keep itself informed from time to time, of the wants and exigencies in the way of clothing of the volunteers of this county, who have left, or who may hereafter leave, for the war; it shall cause the materials to be given or furnished, as aforesaid, to be made up into suitable clothing and accoutrements as the same may be needed, and for such purpose may distribute such materials among the patriotic ladies of the city and the county, whether formally members of the society or not, as in their good judgment will most expeditiously and reasonably convert them into clothing. It may place itself in communication with any authorized committee of the Adams County Volunteer Aid Association, so called, and in conjunction therewith, or as auxiliary
thereto, do and perform generally and specially any and all acts that come within the purview of this Society, and with the aid of the Treasurer, shall deliver and distribute the clothing and accoutrements when made, to any person or persons duly authorized to receive the same. Said committee, or a majority thereof, shall have authority to fill any vacancy among its members, from whatever cause the same may occur.

The same committee reported that they recommend the following ladies as permanent officers; all of whom were elected, to-wit:
For President.......Mrs. W. H. Watkins.
For Vice Presidents...........
{ Mrs. J. P. Walworth.
{ Mrs. G. W. Koontz.
Secretary........Mrs. Dr. [?] G. Walworth.
Treasurer........Mrs. L. D. Adlrich.

The following resolution was then offered and passed:
Resolved, That the Secretary of this Society, at her earliest convenience, notify such officers hereof, as are not now present, of their elections, and that the ladies generally, of Natchez and Adams county, be requested to come forward and sign this constitution, for which purpose the Secretary is requested to distribute a reasonable number of copies thereof, for signatures.

It was further ordered that the above proceedings be published in the Natchez Daily Courier; after which the meeting adjourned.

R. A. Minor, President pro tem.

E. F. Shields, Secretary.

Immediately after adjournment, forth-five ladies signed their names to the Constitution.

The Ladies' Military Aid Society, of Natchez and Adams County, meet daily (Sundays excepted) in the Courthouse, upstairs, from 6 A.M. to 7 P.M. to make up clothes for Volunteers, in both the State and Confederate service. Patriotic ladies of the City and County, whether formally members of the Society or not, are invited to attend and aid in this great cause. Contributions of materials or money thankfully received and faithfully applied. The country expects and knows, that every woman will do her duty. Natchez. July 26 [25?] 1861.

Send me a receipt for washing flannel so as to avoid shrinking.

There is a way
I have heard you say,
I therefore pray
That without delay,
You send it here.

To get the dirt
From drawers and shirt
Without any hurt
To my flannel shirt,
And thanks you'll have.

For Curing Beef.

Prepare your brine in the middle of October, after the following manner: Get a thirty gallon cask and see that it is quite tight and clean. Put into it one pound of saltpeter powdered, fifteen quarts of salt and fifteen gallons cold water; stir it frequently until dissolved; throw over the cask a thick cloth to keep out the dust; look at it often and skim off the scum. In about two weeks it will be ready for use and if kept in a cool, dry place and skimmed when necessary the same brine may answer to cure all the beef a family can use in the course of a winter. For salting your beef prepare some large new tubs, bore holes in the bottom and raise them one or two inches opposite the holes that the bloody brine may run off.

As soon as the beef has been cut into pieces of suitable size for packing, rub each piece well with good Liverpool salt—a vast deal depends on rubbing the salt into every part—sprinkle a good deal of salt in the bottom of the tub and when each piece has been well salted, lay it in the tub and be sure to put the fleshy side downward. When the tub is full cover it over with a layer of salt and let it remain for ten days, then take it out, brush off the salt and wipe the pieces with a damp cloth; put it in the brine with a board and weight to keep it under. In about ten days it will look red and be fit for the table.

The best time to begin to salt beef is the latter end of October, if the weather be cool, and from that time by the use of the same brine (for the older it is the better) beef may be had in succession throughout the winter.

Another—For Curing Beef or Pork.

Water, one gallon; salt, one and a half pounds; brown sugar, half pound; saltpeter, half ounce; potash, half ounce. In this ratio, the pickle to be increased to any quantity desired. Let these be boiled together until all the dirt from the salt and sugar (which will not be little) rises to the top and is skimmed off. The pour the pickle into a large tub to cool, and when cold, pour it over your beef or pork which has been packed after passing through the process of salting and dripping, a slight sprinkle of powdered saltpetre [sic] having been mixed with the salt.

The brine may be poured over the meat two days after killing, but the brine will have to be drawn off and reboiled as often as the presence of bloody matter may render it necessary.

In giving the above receipts a fair test, it will be well to bear in mind the importance first of securing the best article of brine that can be made. It should be strong and free from every particle of dirt which will show itself on the surface in the form of scum which must be removed. Before the meat is packed ready for the brine to be poured on, it should be allowed to
remain in salt, with the fleshy side downward, until it has thoroughly dripped. If the brine is tinged with bloody matter after it has been poured over the meat, it is evidence that the dripping was not thorough and the brine should be drawn off and reboiled until perfectly clear. As long as anything remains liable to acidify there is present an element of impurity which will impart itself to the meat and will injure and perhaps spoil it.

Hoping these suggestions will not be out of place and the information herewith communicated upon a subject, at this time, of very great importance to the country, may prove beneficial to the public, I remain yours, &c.,

J. R. Galtney.

The Military Aid Committee, we learn, has found some difficulty in procuring material for clothing our soldiers now in the field. Within the past week, however, they have succeeded, and the Ladies are now ready to supply willing hands with work. The Fencibles are in need of Fall and Winter clothing, and the Light Guard should be supplied as soon as possible. Will the Ladies of the county call at the Courthouse early this week, and assist in making up the material now on hand? Garments, already cut, will be sent to those who apply for them. We are sure this call will be readily obeyed. Let the Ladies of the county come forward as soon as possible, and assist the noble spirits of the city, who have for weeks beendevoting themselves in this holy cause.

NATCHEZ DAILY COURIER, September 10, 1861, p. 1, c. 1
Something near two months ago the ladies of Noxubere County in this State, made up some hundred and twenty (more or less) suits of clothing for volunteers from that county, in Virginia. A good deal of time, trouble and expense were expended upon the work. The suits were boxed up and placed in charge of one of the members of the company to convey to his associates who were really suffering for the want of them. That member was so derelict in his duty, that the boxes were broken open at some Rail Road station, and every article of dress taken from them. This was decidedly the most dastardly mean act we ever heard of. Had there been any thing else than soldier's clothing, we would not have wondered much--but to steal the necessaries intended for men engaged in defending the rights of our country--it was too bad. Nothing daunted, however, the ladies of Macon have gone to work again with the intention of duplicating the supply. God bless them.

NATCHEZ DAILY COURIER, September 10, 1861, p. 1, c. 2
A good suggestion is made in the excellent sheet of our old friend, John W. Ward, Esq., the Copish County News: it is that good warm gloves should be provided the soldiers, especially those in Virginia. It is a suggestion that they should be made long in the wrists so as to come well up over the coat sleeve, to protect the hand and arm of the soldier, particularly while standing on guard. This subject, preparing for the comfort of our troops in Virginia, should be an engrossing one with our people at home. We fear that our home folks do not properly appreciate the matter. It is now pleasant Fall weather, and we cannot properly realise [sic] until the fact startles upon us, that the weather in that State is so more severe in winter, than with us. Many of the Southern troops now there, will probably have to remain during the whole Winter; if so, unless some provision is made for very warm clothing and plenty of it, they will suffer. We hope our friends all over the South will think seriously of this matter, and in good time make
arrangements for the comfort of those noble souls who are risking their lives and their health in defense of our rights, and that we may remain here in the ...... now enjoyed by us.

Substitute for quinine. Dr. D. B. Phillips, late of the United States Navy, now of the Confederate Navy, says:
"Raw corn meal unsifted, and freshly ground, administered in doses of a large tablespoonful six or eight times a day, or a tea made of fodder, is an admirable remedy in intermittent fever. The yellow corn is the better variety, and a drink made of the tablespoonful of the meal, stirred in a glass of water, and taken frequently, is not only a good remedy but a pleasant and refreshing beverage, which may be taken in all stages of the disease without the slightest evil effect.

The New Style of Shoes.--Mention has been made in the public prints of the introduction to a new kind of shoes for the army, made of canvas. Some contrivance to avoid the use of leather are common in Yankee land. Many of the prisoners captured by our forces in the battle of Manassas wore the kind of shoe alluded to. They are said to be admirable for marching purposes, being durable and fitting easily to the foot. At the North they cost only $1.50 per pair.

We learn that the Military Aid Society has shipped over 1000 lined blankets to the seat of war in Virginia, and that they have over one thousand yet on hand to line. They will be sent off as soon as they are made ready.

Although our people have been liberal--extremely so--in supplying the societies with blankets, there are still more wanted. Bring them forth, and place comforts on your own beds in their stead. We would suggest to the ladies that cotton batting can be obtained at Jackson; a most excellent and convenient article for making comforts.

The following note, received from one of the lady members of the Confederate Sewing Society, explains itself. We inadvertently made the errors which this note corrects, but were not aware of them until after our paper appeared yesterday morning--too late to correct them. We publish the note, as it sets the matter in its proper light:
Editor Daily Courier--Dear Sir: Will you be kind enough to insert a few particulars in regard to the society, mentioned in the Courier of yesterday (Tuesday) as the "Military Aid Society."

The association that holds its daily meetings in the brick schoolhouse at the corner of
Commerce and Jefferson sts., is known by the name of the "Confederate Sewing Society." Its object is to do any work that may be required for the soldiers of the Confederate army; but as yet, the members have not been employed for the troops in Virginia or at Pensacola, except so far as their efforts were extended to furnish two boxes of clothing, &c., for the sick and wounded in Richmond.

The lined blankets, mentioned in the Courier of Tuesday, were prepared for Gen. Dahlgren's Brigade; and have, to the number of one thousand and twenty-six, been forwarded to their destination.

It has been deemed advisable to make these few and simple statements, in order to avoid all misapprehension in regard to the

Confederate Sewing Society.

Canvas Shoes for the Army. The Quartermaster General's Department in Richmond has received there, 5,000 of a new kind of shoes, of a rather curious description, that promises to answer well in the great scarcity of shoe leather. The upper portions of the shoe are made of canvas instead of leather. The canvas is prepared so as to make it impervious to the weather, and is said to equal in comfort, durability, and all respects of wear, the best of shoe leather.

Ladies Military Aid Association.

It has been asked what has been done and being done by the Ladies of Adams County for our patriotic volunteers. This has been answered in part, by an account recently given in the "Courier," of the doings of the "Confederate Aid Society," at their place of meeting for work, the Brick School House, corner of Commerce and Jefferson streets. This, the "Military Aid Society," commenced its labors about the 20th of June last, and have made up clothing for Volunteers as follows:

350 Hospital Garments.
650 Check Shirts.
275 Pair Cotton Drawers.
180 " Cottonade Pants.
475 " Winter "
170 Winter Jackets.
350 Flannel Undershirts.
530 Pair Winter Drawers (nearly complete).
100 Fatigue Jackets.
250 Towels.
300 Pair Socks.
120 Garments for Capt. A. V. Davis' Company.
80 " for Armstrong Guards,
and have now in hand, making up:
400 Over Coats.
100 Pair Winter Pants.
Lining of blankets, knitting socks, etc. etc.

The foregoing is an account of what has been done by this Association since the 20th of June. Previous to this time, a large amount of work was got up by the Ladies of Adams county, under the general management of Mrs. Miller, Mrs. Izod and Mrs. Cory; the exact number of garments not known, but may be set down at thousands, as they comprised most of the outfit of the volunteers in summer clothing.

It should be remarked, also, that in addition to the above, hundreds of garments, pillows, etc., have been donated by the Ladies of Adams Co.

Typhoid fever in the army. Messrs. Editors: Every day we hear the sad tidings of death among our boys in the army, from that scourge, Typhoid Fever. A gentleman of the medical profession, now in our city, a citizen of Texas, expresses his surprise that the potent remedy of Spirits of Turpentine has made so little progress in the country for the cure of this ailment. My friend Dr. R., a man of splendid professional ability, says that if any remedy can ever be called a specific, Spirits of Turpentine may be so considered in cases of Typhoid Fever.

He begins with small doses of about ten drops every two hours, and continue the remedy in larger doses, giving as high as a teaspoonful at a dose, till the right action is seen on the skin. Spirits of Nitre [sic] may be needed to relieve the strangury apt to follow the administration of turpentine, but nothing further is ever needed.--Atlanta Confederacy.

We will add our humble testimony to the efficiency of this remedy. During a serious spell of Biliious fever, from which we suffered for several weeks, last summer, the use of turpentine mainly, brought us out safe and sound.
Asparagus for Coffee.
[From the Annual of Scientific Discovery]

Liebig states that Asparagus, contains, in common with Tea and Coffee, a principle which he calls Taurine, and which he considers essential to the health of those who do not take strong exercise. By this, a writer in the London Gardener's Chronicle was led to test Asparagus as a substitute for Coffee. He says: The young shoots were not agreeable, having an alkaline taste. I then tried ripe seeds, and they, roasted and ground, made a full flavored Coffee, not easily distinguished from fine Mocha. The seeds are easily freed from the berries by drying them in a cool [warm, I suppose he means.] oven, and then rubbing them on a sieve.

There is in Berlin, Prussia, a large establishment for the manufacture of coffee from acorns and Chicory, the articles being made separately. The Chicory is mixed with an equal weight of turnips, to render it sweeter. The Acorn Coffee, which is made from roasted and ground Acorns, is sold in large quantities, and frequently with rather a medicinal than an economical view, as it is thought to have a wholesome effect upon the blood. Acorn Coffee is, however, made and used in many parts of Germany for sole purpose of adulterating genuine Coffee.

Stocking Yarn. We learn from the Augusta Constitutionalist that the Graniteville Factory has commenced the manufacture of cotton yarn for the making of socks and stockings—the machinery for the purpose having been recently imported from England. The yarn is said, by those who know, to be of the best quality, and it will be sold at reasonable prices.

Ladies Military Aid Association.

The Ladies who are in the habit of assembling at the Courthouse to aid in making garments for Volunteers, will do a favor by meeting in full attendance TO-DAY and for a few days to come, as garments now in hand are very much wanted.

Finely carded, clean, white cotton makes most excellent lint. It can be conveniently put up for use in small bales—say two feet long by ten inches thick. A bale of hemp might easily be opened and the fibres [sic] cut about three inches in length. It could then be immersed for some days in a solution of chloride of soda, and subsequently bleached in the sun and dried thoroughly. When dry it is fit to be carded, and the process of carding, when well completed, will convert it into white and disinfecting lint or charpie. The hemp so prepared was used by the French surgeons in the Crimean war. A scientific apothecary should superintend the preparation of the hemp and the packing in bales of two feet long and ten inches side. One bale of hemp would supply an army of 50,000 men.
To the Ladies.

All in want of yarn to knit socks for our soldiers, can be supplied by calling on

A Simple Salve for Soldiers' Feet in Marching. The Scientific American has received the
following receipt for making an excellent composition for anointing the feet of soldiers during
long marching. Take equal parts of gum camphor, olive oil and pure beeswax, and mix them
together warm until they are united and become a salve. At night wash the feet well--dry them
and apply the salve, and put on clean stockings and sleep with them on. Next day the feet will be
in excellent trim for marching.

There are four things that look very awkward in a woman, viz: To see her undertake to whistle,
to throw a stone at a hog, to smoke a cigar, and to climb over a garden fence.

Dear for the Whistle. The rage in Paris is for gold collars, in form the size like the present tiny
appendages to a lady's toilette, of linen and needlework. They are only about $250 each.

Removing sunburn. If your young lady friends would like to know what will take off tan
and sunburn, tell them to take a handful of bran, pour a quart of boiling water on it, let it stand
one hour, then strain. When cold put to it a pint of bay rum. Bottle it and use it when needed.

Ladies in Homespun. Many beautiful damsels were seen yesterday on King street, in suits of
homespun. We trust the example will be followed, and if our fair ladies know how much
pleasure it afforded to the volunteers and to all good citizens, it would be generally and
universally followed.

Sagamite.--Portable Food for Scouts. The old historians and travelers, and Indian
fighters, tell us of an admirable and easily portable food, which the Red men carried with them in
their pouches on their hunting and war parties. It was a combination of Indian meal and brown
sugar, three parts of the former to one of the latter, browned together over the fire. This food, in
small quantities, not only sufficed to arrest hunger, but to allay thirst. This is the famous
sagamite of the Red men. A few pounds in one's haversack would occupy little space, and would
serve for several days. Let our boys here and there try the preparation in camp, and learn the
uses of the article before going on a march. Their friends might prepare a supply of it in the
cities, and forward to the camp; and if, upon experiment, it shall prove palatable, it may be
prepared in any quantities. In the siege of Charleston, in 1780, the people lived wholly on rice
and sugar for some weeks.--Chas. Mercury.
We have been remiss in not noticing the change of location of the "Confederate Sewing Society," of which Mrs. A. L. Wilson is President. The Ladies of this excellent institution now assemble for work at the Masonic hall. We learn that for the past week or ten days they have been actively engaged in making up garments for the Missouri volunteers. They are now sewing for Gen. Hardee's command, and solicit contributions for those brave men, who are represented as in great need, as well as the troops of Arkansas. Any contributions that may be made will be received at the store of T. C. Pollock or Jas. Carradine.

BLANKETS. We learn that nearly all the blankets, formerly in possession of private individuals in and around Natchez, have been purchased for the use of the army, and that now more are wanted and none are to be found. We learn that Mr. O'Farrell who keeps a store at what is commonly called the "Forks of the Road," has a large supply of good blankets on hand, and we suppose he would sell them at a reasonable price for the use of the patriotic soldiery in the South. LOOK HERE! The ladies of the "Military Aid Society," having learned that the Missouri troops are much in need of winter clothing, are anxious to make them up a supply. They need the material. Will not our patriotic people come forward and liberally supply these ladies, who are every day devoting their whole energies and giving their labor for the good of the cause? Materials for thick coats and pants, as well as socks are wanted, and they should be supplied immediately. It will not be long before those noble men who have caused Fremont to shake in his shoes, will be in need of those garments. Let the cloth be forecoming early.

Knitting Machines. We this morning saw a New Orleans made knitting machine at work, making stocking legs with great rapidity out of stout worsted yarn. The machine will knit all kinds of thread, and in that respect is greatly superior to the northern made machines. It was made by Mr. Spellman, an ingenious mechanic, for some of our patriotic ladies; the castings having been furnished by Messrs. Leeds & Co. If necessary for knitting of soldier's socks, hundreds of these machines could be furnished and put into operation in a comparatively short space of time.

Through the politeness of a friend we have been furnished with a list of articles put up in two bales, about the size of cotton bales, to be sent to the army under Gen. Hardee's command, by the ladies of Kingston and Second Creek. This, for a small neighborhood is a pretty good consignment we think.

We have no doubt but the material sent from this county alone will tend considerably towards making the Missouri forces very comfortable. We learn that Mr. Kibbe took last night a very large amount of goods for the army of Jeff. Thompson.

We can only say that we do not see any thing like a falling off, but rather a gathering of
strength in the disposition of the good ladies of this great county of Adams: 97 blankets, 137 prs. woolen socks, 76 prs. pants, 30 cotton shirts, assorted, 30 linsey shirts, 11 flannel shirts, 13 coats, 34 prs. linsey drawers, 10 vests, 30 scarfs [sic], 27 caps, 12 towels, 3 prs. gloves, 6 prs. drawers, 2 bundles lint.

Home Tanneries.

The great demand for and the scarcity of leather, calls upon every planter to turn his attention to this matter. Many persons have heretofore considered it a business of small importance to give special attention to the hides taken from the cattle killed upon the plantation from time to time during the year. ... The plan usually pursued, is to dig out a trough from the large end of a poplar tree, some two feet deep and the same width, and twelve feet long to supply the place of a tan vat. The hide, as soon as taken from the animal, should be immersed in lime water until the hair is loosened, then taken out, and with a suitable instrument the hair is easily removed; it should then be well washed in water, to remove the lime, when it is ready to be put into the tan vat. Tan or tanning is made of the very best kind, from Oak Bark. I think the White Oak probably the best, but Red Oak, which is so plenty [sic] through this country, will make better leather by far, than most of the shoes we have been buying from the north, made either from Hemlock bark or if not all of Hemlock at part at least. There is no doubt that the leather tanned with cold water is the best, although the process is expedited by heating the water of the tan-vat occasionally. There are other processes by which hides may be made into leather, much sooner than by the old process, but whether the leather is as durable when made by the short plan, is yet doubtful. If this was attended to at once, in twelve months the great difficulty of procuring leather would be overcome, and many dollars which have heretofore gone to enrich our enemies, would be found in our own pockets.

Fellow Soldiers.--Gen. A. Sidney Johnston addressed a large crowd of citizens in this city a short time since. He began, Fellow soldiers, I call you soldiers, for you are all the reserved corps."
This was a well timed remark, and showed that as a military man he knew what was coming. The South will need all of her force. Every able bodied man may as well make up his mind to it, and that soon.--Nashville Banner of Peace.

We learn by the last Texas papers that a train from the Rio Grande recently brought to San Antonio 500 sacks of coffee. It is thought that brisk trade will spring up in that section of country--coffee will be brought in and cotton taken out to Mexico. Wonder if this is not a Yankee "trick?"

A New Style of Letter Envelopes.--The 'envelope-letter' is a recent invention, and seems to be worth adoption in this Confederacy, as a most useful contrivance. We find it thus described:

It presents us three separate things in one, viz: a sheet of letter or note paper, an envelope and a postage stamp, all so simply put together that one may use them with more ease than he would the old envelope, the advantages are, first, that the whole costs less than the materials would separately, thus afflicting an important economy for those who write many letters; second, the stamp cannot be stolen or rubbed off, which is a matter of some consequence when it is remembered that nearly a million of letters are returned to the United States Dead Letter office annually, that have suffered in this way, third, the postmark is always on the letter itself, which can therefore be used in courts of justice, as a legal proof or document, as to dates, contracts, etc. fourth, as the sheet, envelope and stamp are one, time and trouble are both saved in conducting a heavy correspondence.

The editor of the Savannah News has been shown a sample ball of sewing cotton manufactured at the Sweet Water Factory, in Campbell county, Ga. The cotton used in making the thread is of the finest kind, costing 23 cents per pound, and the thread is of a very superior quality, strong, even and free from knots, and adapted for use on sewing machines. The ladies will undoubtedly find it preferable to the cheating Yankee spools with which they have heretofore been supplied, as a consequence of our unnecessary dependence on the North.

From the London Punch.
Daughters to Sell.
Sung by a Lady of Fashion.

Daughters to sell! Daughters to sell!
They cost more money than I can tell!
Their education has been first rate;
What wealthy young nobleman wants a mate?
They sing like nightingales, play as well;
Daughters to sell! Daughters to sell!

Here's my fine daughters, my daughters, oh!
German, Italian and French they know,
Dance like Sylphides for grace and ease;
Choose out your partner, whichever you please.
Here's a nice wife for a rich young swell;
Daughters to sell! Daughters to sell!

Beautiful daughters, dark and fair!
Each a treasure to suit a millionaire,
Or fit to pair with any duke's hair
At St. George's Church by Hanover-Square.
Hoy! you that in lordly mansion swell,
Daughter to sell! Daughters to sell!

Buy my dear daughters! Who wants a bride.
That can give her a carriage and horses to ride,
Stand an opera box for his fancy's queen,
And no end of acres of crinoline.
Ever new furniture, jewels and plate,
All sorts of servants upon her to wait;
Visits to Paris, Vienna and Rome.
In short, all that she's been brought up to at home.
Here are girls for your money if out can shell.
My daughters to sell! My daughters to sell!

It will be seen by reference to our advertising columns, that the patriotic ladies of our city and county, will give an exhibition of Tableaux Vivants, at the Institute Hall, on Tuesday evening next. We hope a proper appreciation of the efforts on behalf of the ladies will be shown by our citizens on the above occasion, by crowding the Hall.
Stockings for the Army. The following rules are laid down for the direction of ladies wishing to knit socks for the soldiers: Get large needles and a coarse yarn. Cast on seventy-eight stitches and knit the let ten inches before setting the heel. The heel should be three and a half inches long, and knit of double yarn, one fine and one coarse, for extra strength. The foot should be eleven or twelve inches long.

We the Undersigned do hereby agree to close our places of business at 4 o'clock, P.M., from and after this date--Nov. 1, 1861: [list]

Notice. A series of tableaux vivants will be given at the Institute Hall, on Tuesday evening next, Nov. 5. Doors open at 4 1/2 o'clock. Exhibition commences at 7 o'clock. The proceeds will be applied to the benefit of the soldiers now in the army. Tickets One Dollar;--Children Half Price. Tickets to be obtained at the following places ...

The Best Coffee.

From the Mobile Daily Tribune.

In times of famine, occasioned by the total loss of a crop, by scarcity, the protracted operation of a siege, or by a blockade such as now prevails, while food is diminished and dear, efforts are usually made to substitute for articles of prime necessity others that approximate most nearly to them in their taste and general sanitary effects. Under circumstances it pertains to all enlightened and practical hygienic systems to select for the purpose of such experiments, those substances which are most wholesome. At the South, several substitutes for coffee have been resorted to. Neither of them is unwholesome; but, at the same time, neither is designed to produce salutary results. By roasting corn, wheat, oats, or potatoes a considerable consumption of genuine coffee is certainly economised [sic], the latter being used by in such quantity as is necessary to flavor. Now, if in adhering to the small quantity employed for imparting taste to the decoction, the roasted acorn shall be adopted, the problem is solved.

The acorn of our native oak (Quercus Alba) is found in great abundance from Canada to Florida. This species approaches nearest to the fruit bearing oak (Quercus Hispanica) which is palatable, raw or cooked and which constitutes an important element of traffic in Old Castile. If the reader will carefully note the analysis given of it by Lorvig, the chemist, he will be convinced
that it contains such substances as are, at once, most nutritious [sic] and medicinal; Greasy oil, rosin, gum, tannin, or bitter extract, starch and the remainder potash and calcium salts.

Acorns supplied the food of man before wheat was discovered. In France, during the scarcity of 1709, the indigent were compelled to have recourse to this resource for them, the only one. Pulverised [sic] into flour, they made use of it for bread; and, under the first consulate, upon the establishment of the continental system, some industrial economists conceived the idea of substituting the roasted acorn for coffee, and styled it "indigenous coffee."

In 1840, while I was stationed in the Grecian Archipelago, I visited from time to time the principal islands--Samos, Scio, Imbros, etc. The Greeks who inhabit those countries have recourse to acorn coffee in the slightest affections of the stomach or intestines; and I have seen subjects suffering from chronic dyspepsis, or diarrhoea [sic], cured in less than four or five days.

The reader may assure himself of the correctness of my statement by opening any standard work on materia medica; and he will learn that acorn coffee is a tonic proscribed in scrofula, debility of the digestive organs, and recommended as a substitute for coffee to nervous persons. If, therefore, the blockade should continue, and the importation of coffee is rendered impracticable, it would be very natural that the use of acorn coffee, mixed with the genuine should become universal. The poor would find it equally a source of economy and a valuable remedy; and soldiers in camp would be less exposed to diarrhoea [sic], one of the most terrible evils that can exist in an army.

In order to prepare this coffee, the acorns must be first roasted in an oven. The hard outer shell is removed, and the kernel is preserved, which, after being roasted, is ground with ordinary coffee.

Have you a Spare Blanket for a Soldier?

There are now about forty volunteers to quarters at the Marine Hospital in this city, and others are joining the force daily. It is expected that on Saturday next those recruits and others who are daily swelling their ranks, will be sufficient in numbers to form two more companies from Natchez and Adams County. At all events, one full company will be formed out of these volunteers, and all who sign the rolls will go, and are pledged to serve, whether as officers or privates. All join on an equal footing. Those who are most active in getting up these companies, or this company, are Capt. Henry Dougherty, proprietor of Dougherty's Hotel, Under the Hill, Lieut. Oscar, formerly an officer of Artillery in the Prussian service, Gen. W. W. W. Wood and Mr. C. Fred. Thomas, an ex-officer of the ancient Fencibles, who have enrolled their names among the volunteers. These gentlemen represent to us that Blankets are much needed for the recruits now mustered in, and those about to join, and they would feel obliged for a donation of blankets--Have you reader, a spare blanket for a soldier?

Apples for the Ladies. We learn that an old gentleman, from Blount co'y, with a load of fine apples, in going to the Baptist Church lately, and on seeing (as is always the case) a large number of our patriotic and benevolent ladies busily engaged sewing, supposed it to be a tailor's shop, and went in and endeavored to sell them his apples. The ladies informed him that they were working for the soldiers, and they had no money to buy his apples. The old gentleman studied
awhile, asked if they did not get paid for the work they were doing. They, of course, told him they did not; that they were working for our brave soldiers in the field, and that their object was purely a benevolent and charitable one. Whereupon the old man said, "Well, I suppose you want the apples, and as you are working for the soldiers, you can have 'em for nothing," and he generously donated his whole load of fine apples to the ladies.--Montgomery Mail.

The Tableaux. We feel very sensibly that our weak pen is inadequate to the task of giving a notice of this splendidly beautiful affair. Suffice it to say, that in every respect it was perfection. Too much praise and credit cannot be given to the ladies and gentlemen who have taken the pains and trouble which must have been caused upon getting up so splendid an exhibition.

It required but little effort on the part of the delighted gazers, to imagine that they beheld richly painted pictures.

We were pleased to see that the room was crowded, and to learn that an effort will be made to get the ladies to repeat the exhibition at an early day.

We learn that the proceeds amounted to near $600.

A great curiosity was sent us by Mrs. Blanchard. It is a model economical candle, sixty yards long and it is said will burn six hours each night for six months, and all that light at a cost of about fifty cents. It is made by taking one pound of beeswax and three-fourths of a pound of rosin, and melting them together, then take about four threads of slack twisted cotton for a wick, and draw it about three times through the melted wax and rosin and wind it in a ball; pull the end up above the ball and light it, and you have a very good candle. Ours is very fancifully wound on a corn cob, and makes a pretty ornament.—The curious can see it at our office.

Castor Oil--How Made.

The following communication to the Houston Telegraph, from Mr. E. T. Duffau, of Austin, will be read with interest:

... The following is the process for preparing it on a large scale: The seeds having been cleansed from dust and fragments of capsules, are conveyed into a shallow iron reservoir, where they are submitted to a gentle heat, insufficient to scorch them, and not greater than can be borne by the hand; the object of this step is to render the oil sufficiently liquid for easy expression; the seeds are then introduced into a powerful screw press. One bushel of good seed will yield about six quarts of the best oil.

The yield of the seed is from 40 to 60 bushels to the acre, or say 75 gallons of oil, which, at the low price of $1 per gallon, is $75 to the acre.

The mode of cultivation is to plant and attend to the crop the same as corn, thinning out
to two stalks in a hill, and leaving a space between the rows of four feet.

The oil will give about 10 or 12 per cent. more light than lard oil, and can be used in the same lamps.

The plant may be found growing in Texas almost anywhere. There are stalks of it in the streets of Austin, and on my visit to your city I found it all along the roads.

From the statement I make, you will at once see that it will pay better than any crop which can be planted in Texas.

To Ladies of Adams County!
Can we withstand such an Appeal?

Nashville, Dec. 4, 1861.

My Dear Young Friend--I write to you to get your interest in sending us Hospital supplies. I know how much you have done, and I know by experience that cotton planters have no money; but you have shirts, drawers, towels and handkerchiefs, and a thousand things that will be very acceptable. At first, we thought we would only appeal to the people of Tennessee, but since Nashville has been made the great Hospital, we will be forced to ask aid of our friends in the other States. We have sick men here from Mississippi, Louisiana, Arkansas, Texas, Georgia, Tennessee, and Kentucky. In our Hospital there are at least 2000 sick; measles and the consequences and typhoid fever are the prevailing diseases.

You would not know my beautiful drawing rooms—mirrors and chandeliers in bags, furniture and carpets removed to the garret, and ten sick men lying there—four hovering between life and death.

I have slept on a sofa in my library for four nights, with an alarm clock at my head to wake me every two hours. Many other houses in the city are in the same situation."

The above is an extract from a letter, received by a lady in this county, from one of the Vice Presidents of the Soldiers' Relief Society of Nashville, Tenn. The recipient of this letter publishes it, hoping that the already liberal women of Adams county will send all the Hospital stores, such as mattresses, comforts, sheeting, pillows, whiskey, brandy, sage, &c., they can spare, to care of Mr. Jas. Carradine, Main street. There they will be packed and sent by the first of January, to Nashville, in the name of the Ladies of Adams county. Let us do all we can for our poor distressed soldiers--maybe we will be but helping our own.

Help One Another. Every one connected with the printing business is laboring under the disagreeable trouble of procuring a sufficiency of paper. Clean rags are scarce for the supply of paper-mills. Now our planters can help us out, if they will but save and bale their refuse cotton. We understand the paper-mills will pay three cts. per pound for this article, and that a market can
be found at B. S. Tappan's, Vicksburg, Miss. at the same price. Let our planters consider this matter, and help us to obtain more paper and of larger size and better quality.

Merry Christmas.

"Twas the night before Christmas, when all through the house,
Not a creature was stirring, not even a mouse;"--

Who wrote the above lines? We should like to know, for, since we can recollect, at Christmas Even, they always float through our brain like far-off strains of sweetest melody, and as old Time silvers our once brown hair, our happy boyhood's Christmas Eve, with its joyous, innocent sports, rendered more pleasant by the presence of a loved father and mother, brothers and sisters, comes back to us in thoughts too gladsome to think upon. "No more; never, no more."

This morning our little folk will be up with the dawn; soft beds and downy pillows will have no attractions for them, while little, barefooted feet will patter over the cold floor to the chimney corner, to see what the Patron Saint of Christmas gifts has bequeathed them. How their bright eyes will glisten, as with almost suppressed breath they proceed slowly and carefully to empty their stockings of their precious contents. Santa Claus's heart will be filled with deep, quiet joy, and vow that each succeeding Eve shall rival the last.

Men and women--you who have to stem Life's stern realities; who battle for your Country's cause with the sword and needle, on the battlefield and in the hospital, on the lonely sentinel rounds and about the dying soldier's couch, in the tent and in the house--to all, Men, Women and Children, we wish you, with many many happy returns, a "Merry Christmas."

The Families of the Absent Soldiers.

Mr. Editor: The money pressure makes the cotton growers almost powerless in affording relief to the distressed, and as such, cuts of much of that material aid which the condition of society demands. The planters of this county, as a class, have done nobly in their contributions for the support of our soldiers, now in the field, and many of them have furnished articles liberally to the "Free Market," by which destitute families have been supplied with the necessaries of life. We suggest that a cheerful fire in this wintry weather would gladden many a household, and as Christmas week furnishes a favorable season for such little kindnesses as bless the giver and the receiver, will not our neighbors in addition to the meat, meal and vegetables so regularly sent in for distribution, send in a few loads of wood for the same purpose. If our planters would think of it we have no doubt that a full supply for all immediate necessities could be readily furnished. What say you planters? The cotton yard of Newman, Buckner & Stockman is offered for the use of such as wish to help in this matter.

Sweethearts and the War.

Oh! dear, its shameful, I declare,
To make the men all go.
And leave so many sweethearts here,
Without a single beau.
We like to see them brave, 'tis true,
And would not urge them stay,
But what are we poor girls to do,
When they are all away?

We told them we could spare them there,
Before they had to go,
But bless their hearts, we weren't aware,
That we should miss them so.
We miss them all in many ways,
But truth will ever out,
The greatest thing we miss them for,
Is seeing us about.

On Sunday when we go to church,
We look in vain for some
To meet us, smiling, on the porch,
And ask to see us home.
And then, we can't enjoy a walk,
Since all the beaux are gone,
For what's the good (to use plain talk,)
If we must trudge alone?

But what's the use of talking thus,
We'll try to be content;
And if they cannot come to us,
A message may be sent.
And that's one comfort any way,
For though we are apart,
There is no reason why we may
Not open heart to heart.

We trust it may soon come
To a final rest;
We want to see our Southern homes
Secured in peaceful rest.
But if the blood of those who love,
In freedom's cause must flow,
With fervent trust in God above,
We bid them onward go.

And we will watch them as they go,
And cheer them on their way,
Our arms shall be the resting place,
When wounded sore they lay.
Oh! if the sons of Southern soil,
For freedom's cause must die,
Her daughters ask no dearer boon,
Than by their side to lie.

Wooden-Soled Shoes. We learn that the Georgia made shoes, with double maple soles are in very good demand. Mr. Markstein has already filled a considerable order from Virginia, for army demand, we suppose. Several planters have been testing their merits, and the result has in all cases proved favorable. In our own immediate vicinity, or in what might properly be called "The Army of Mobile," they have been tried, and the report is so favorable that only yesterday an additional lot was ordered. We have no hesitation in saying that they will prove an excellent marching shoe. Some other article might better suit the double-quick movement, but for an all-day lick they will prove less fatiguing than a more elastic shoe. Besides, the foot is less liable to
One thing we must say—thought that will not diminish their value among our boys-they'll never do to run away in; indeed, they are a southern shoe, and not designed for that kind of service—Mobile Advertiser.

The Hand-Loom and Shuttle.

Our friend Mumford McGehee, of Natchez, ever mindful of the public wants and always inventive and industrious, has lately made one of his improved hand-looms, which is for exhibition at the warehouse of B. Pendleton, Esq., directly opposite this office. It is a neat structure, and will contrast favorably with any of foreign brand.

Mr. McGehee feels sensibly the importance and necessity of the South at once entering upon the manufacture of its own cloth; and he doubtless thinks, with many others, that if his loom does not entirely take the place of the piano, it should have a room alongside in every house in this Confederacy.

We ask our readers to give his new loom an inspection and trial.

[In the December number of Blackwood's magazine, we find two articles devoted to the "situation" of American affairs. The first is entitled "A Month with the Rebels;" the second "Some Account of Both Sides of the American War." Both articles are well written, and in view of the hitherto strong anti-slavery proclivities of Blackwood, the opinions expressed are remarkable. We subjoin some extracts, showing the leading points in the paper, entitled "A Month with the Rebels."--Richmond Examiner.]

The Women.

The women of all classes seemed not less unanimous and devoted than the men. Along the line of railway, crowds waved flowers and handkerchiefs as the train bore towards the seat of war those who were nearest to their affections. Mothers, sisters, wives, flocked to the railway stations to bid farewell to those for whom they would willingly give their lives. Yet few shed tears at these partings. All the weaker feelings of their nature seemed sealed up or banished, and a conviction that each was making a sacrifice in a holy cause was stamped on every countenance.

Clothing for the Army.

At Charleston we had the opportunity of visiting one of those societies which are organized throughout the whole South for supplying the army with clothes. The central depot is situated in the middle of the town. In the basement floor we found large packages marked for different regiments, then at the seat of war. Upstairs several ladies were engaged in arranging in lots different kinds of uniform, and measuring out cloth, flannel, linen, cotton, to be made up by the fairest in the land.

We learnt from those who have the superintendence of this vast establishment, that about one thousand ladies are daily employed at their sewing machines, making different articles of military attire. The work of the week, which had then just elapsed, consisted of two hundred coats, three hundred shirts, besides worsted gloves for the winter, stockings, old linen, and many fancy articles which were sold for the benefit of the society's funds.

Cotton Seed Coffee. We have been favored by a friend, with a sample of Cotton Seed Coffee
prepared by Dr. H. Ravenel, of Poosilee, St. John's Berkley, which we had served up at breakfast yesterday morning, and found very palatable. The Cotton Seed is parched, and ground or powdered, as if it were the Coffee bean, and prepared for use accordingly. The aroma is very like that of Coffee, but rather more like that of Brom [?]. We have little doubt that a mixture of one-third or one-half Coffee, and the rest of ground or powdered Cotton Seed, would easily pass for good, if not pure, Coffee.

We have also tried Rye alone, and in mixture with one-third Coffee, and found both preparations good substitutes for the aromatic bean.--Charleston Courier.

Women in for the War. We find the following dispatch in the New Orleans True Delta of last Saturday evening. We publish it for the information of our readers:
Natchez, March 29. The girls, one hundred and three rank and file, each in herself a Joan of Arc or a Maid of Saragossa, have completed their military organization, and re in for the war. They will leave here by steamer for New Orleans on Monday morning. Give them a warm embrace. Hurra for Mississippi!

They have a Free Market in New Orleans, where each week some 1800 soldiers' families are supplied weekly. Last Friday night some wretch entered the building used by the committee, and stole between $500 and $600. Hanging would be too good for such a fiend.

To the Citizens of Adams Co'y. Notification having been given that in a few days two hundred of our sick soldiers will arrive in Natchez upon the assurance that hospital accommodations will be provided for them, and in order that proper arrangements may be made for their reception, the following gentlemen have consented to serve as a Hospital Aid Committee: Geo. W. Koontz, E. B. Baker, Jas. N. Stockman, A. K. Farrar, Lem. P. Conner. The Committee, co-operating with the Physicians of the County, respectfully notify the citizens of the County, that the Marine and State Hospitals are now being cleansed and prepared for the purpose in view; but that they are deficient in many of the articles necessary to the comfort and convenience of patients; and that it is necessary that the citizens of the county, with as little delay as possible, send in as many of the following articles as they can contribute, namely: Cots or single Bedsteads, Mattresses [sic] and Pillows; Sheets and Pillow Slips, Napkins and Towels; Blankets and Comforters; Dry Moss for Mattresses, Mosquito [sic] Bars and material for same, India Bagging and Lowells for Cots; Wash Bowls, Basins, Tumblers and Pitchers, Bathing Tubs, and Bed Pans. The dimensions of Cots to be made by persons who can and are willing to make them--should be 7 feet in length by forty inches in width. They must also be provided with head and foot boards, and rods for
mosquitoe [sic] bars.  It is earnestly desired that the above or any other donations of Hospital Stores, or supplies of any kind, be sent to the store of E. B. Baker, where they will be taken charge of by the above named Committee, who will distribute the articles as the necessities of the various Hospitals may require. This course is deemed indispensable in order that the supplies may be equitably distributed. Cash contributions are very necessary, and may be paid to Geo. W. Koontz. The necessities of the occasion make it necessary for the committee to urge upon the citizens a prompt and liberal action.

Light! Light!! Light!!! Blockade or No Blockade! The greatest invention of the age. Confederate Illuminating Oil, for burning in Coal Oil Lamps. The greatest illuminator in the Southern Confederacy!

It can be burned in all kinds of Coal Oil Lamps by a simple patent attachment applied to the wick tube, at the trifling expense of fifty cents, which can be attached or removed at pleasure. The Oil can be used with perfect safety, as it cannot be exploded, and produces as brilliant, soft and beautiful light as the best article of Coal Oil. One gallon of it will afford as much light as one gallon and a half of the best Coal Oil, or four gallons of Cotton Seed Oil, or 18 pounds of Sperm Candles.

J. S. Murphy & Co., New Orleans, are the manufacturers of the Oil, and proprietors of the patent attachment for burning it in Coal Oil Lamps. Agents wanted in all the principal cities of the Southern Confederacy.

An unlimited supply of Oil and Lamps for sale at the Drug Store of W. H. Fox, Main street, Natchez, Miss.

Improvement in Candles. Steep the cotton wick in water in which has been dissolved a considerable quantity of nitrate of potassa--chlorate of potassa, answers still better, but it is too expensive for common practice--by this means a purer flame and a superior light are secured, a more perfect combustion is insured, and snuffing is rendered nearly as superfluous as in wax candles. The wicks must be thoroughly dried before the tallow is put to them.
The Ladies of the Military Aid Society have a large quantity of work on hand to be done immediately, for the Hospital, and request those in the city and country who are members of this Society, will please send in for it.

Our Wounded Must be Cared For.

Our late glorious victory has been won at an immense cost of precious life and human suffering. The first, we can only deplore; the latter we can help to alleviate. For this much has been done--but better a surplus of a thousand fold, than that one mutilated patriot-soldier should suffer one hour from want or neglect.

The pupils of the Institute High School will visit every family in the city and vicinity DURING THIS DAY, to receive contributions in sheets, shirts, drawers, pillow-slips, and any article of cotton or linen, even if half worn, that can be useful to the sick or wounded soldier. 

A gentleman of the city will leave in charge of such contributions to-night.

The Marine Hospital.

On Sunday last, we visited the above institution, and noted with pleasure the admirable arrangements which have been made with regard to the comfort and necessities of the sick and wounded soldiers who may be sent here. We suppose our citizens are well aware that the Marine Hospital has, for the past year, been used by soldiers, who have been enlisted here, as barracks, and as a consequence considerable cleaning was necessary. Under the admirable supervision of Mrs. A. L. Wilson, President of Military Aid Society, assisted by other ladies and the Hospital Aid Committee, this has been accomplished, and we venture the assertion that no cleaner or more quiet place than the Marine Hospital, in this city, can be found in the Confederate States.

Mrs. Wilson, assisted by an excellent corps of experienced nurses, has, we are informed, entire supervision of the internal economy of the Hospital. The Hospital Aid committee assists, furnishing whatever may be needed for the comfort of the patients. Two physicians' services have been secured, and an experienced druggist, in whom our citizens have all confidence--Mr. Levi H. Weeks--will dispense the medicines.

We shall recur to this subject again; but, in a parenthetical way, we would suggest to our citizens, both city and country, that they send articles which the Hospital Committee have asked for to E. B. Baker, at the foot of Main street.

All Fool's Day. A large number of persons took a stroll yesterday afternoon on the steamboat landing, with the fond hope of witnessing the arrival of the young female Mississippi volunteers. But they saw nothing of the kind, though there were at that time on the levee many a Miss Volunteer of another sort. It was soon whispered in the crowd that they had been badly sold it being All Fool's Day, and then one by one they all retired, very much excited against the newspapers, and more particularly the True Delta, which published on Sunday, with a flaming
heading, a telegram from Natchez, "from a respectable party," in which it was announced the girls would leave that place for this city on Monday. The female company turns out to be a military canard.--N. O. Bee, April 2.

Sonnet.
Written on hearing of the death of Gen. M'Culloch

See how thy children die for thee, sweet South!
On every field the gory forms of youth
And hoary age cry "vengeance for the slain;"
Nor these alone! Fair woman's voice is heard,
Weird as the music of some midnight bird,
Pleading for loves she will not meet again.
And shall her tears be answered not by blows?
The blood of each young brave demands a foe's!
Our Terrys, Zollicoffers, Garnetts, Bees,
And Ben. McCullochs, have not died in vain;
They scorned to wear the Northern "block and chain,"
And spilt their blood, and shared their enmities
With every Southron, cutting, (as they fell.)
A grave twixt North and South as deep as hell!

The Free Market to Soldiers' Families.

It is too true, that the first part of April is the worst season of the whole year for large and varied market supplies. This cannot be avoided; but as the month wears away, this deficiency will be remedied. We were sorry to learn from the Market Masters, that there was no Free Market for the families of soldiers yesterday morning. This is much to be regretted, and it is to be hoped that our country friends will at once take a survey of their gardens, and see if they cannot find something there that may prove palatable to families of volunteers.

With wholesome meat of any description, rice is a substantial which makes living complete. We understand the Free Market is sadly in want of the article.

Let our good friends but look about themselves, and they will find many article to make home happy with the volunteers' family.

From the Nightingale Brigade.

Okolona, Chickasaw Co., April 10, 1862.

Dear Courier: You perceive from the above that we have proceeded on our mission of mercy as far as this point, where we are endeavoring to refresh ourselves and make arrangements for our future campaign. All our party, in good health and spirits, were met by our Rev. Father Miller, who had arrived in advance with a detachment of Mobile ladies, all glad to see us. ... We were immediately taken in charge of different families of the place, and will remain here until we receive orders from the Medical Director at Corinth or elsewhere. Our reception at Jackson was, as here, gratifying in the extreme. We were shown every attention and kindness, that could only have been given us had we by our acts merited it, but as yet we have not had the opportunity to show what we can do. ... Our next stopping place was at Meridian, five hours' ride from Jackson. We left the cars and went in search of accommodations, which we soon found in the Hotel of the place, which is yet unfinished. ... We accepted, and went with them to the place, which we--the ladies--named "Camp Miller," in honor of our leader ... for had the accident occurred on an embankment in all probability the Secretary of the Natchez Hospital Aid Society would not now be penning these lines to you in Natchez... Correspondence of the Daily Courier.

Corinth, April 26, 1862.

Dear Courier.--You can do no greater favor to the great cause of the truth, or to that of humanity in general, than enlisting the sympathy and efforts of our \[?\] in Natchez, for the sick and wounded of our army. Could your readers walk through \[?\] of the Hospitals--hear the groans which pain \[?\] orts even from those who have proved lion-hearted on the field--see their ghastly wounds, and then realize how such suffering the hand of woman alleviates--how truly she becomes in \[?\] her best and most blest province, "a ministering angel,"--they would extend every effort \[?\] untried, to assist and advance the Hospital cause.

The Hospital here under the charge of Dr. J. W. C. Smith, a gentleman of acknowledged ability, and whose unwearied attention and kindness has called forth general praise. Mrs. E. L. Glassburn is its matron, and I can only say that she, and the ladies of your city associated with her, have won \[?\] laurels. Without them, the Hospital would indeed be a barren waste. I visited it a fortnight since, on their first coming; and I have been a regular visitant of it for the two days past. Such a change, you can hardly imagine. Cleanliness, order, comfort, neatness and
attention, have taken the place of dirt, disorder, and tri[?]. Things move on now like clockwork. The [?] as they arrive, are immediately attended to [?] eir cots spread; their wounds cared for; [?]ring humanity eased, as far woman's hand [?]an do it; and the wounded and sick soldiers [?]e to feel that he has friends near the battle-field who forget not the obligations his country is [?] to him.

I send you the names of the noble women, who are rendering service to the cause of humanity and their [?], at this point: Mrs. E. L. Glasburn, 1st Directress; Mrs. M. Simms, 2d Directress; M[?] Mary Lathan, Secretary; Mrs. R. J. Conklin, [?] M.A. Noland, Mrs. E. Rozette, Miss J. P. Fo[?], Miss Mary Glenn, Miss A. Hopkins, Miss E. [?]ks.

In addition to these, Mrs. Jarboe, a lady from Kentucky--a refugee from the dark and bloody ground, has given her untiring and constant services.

The Visiting Surgeons of the Hospital are Dr. Herr[?] of Adams co.; Dr. Thos. Benedict and Dr. G[?] Frion; to whose skill and care, Dr. A. M. [?] has also given his invaluable aid. Dr. Max [?] is the resident physician, and an extre[?] attentive one. ...

The services of the Natchez ladies are so highly spoken and thought of, that the existence of the Hospital here depends upon their presence. Without them, it would at once degenerate to a [?] or camp hospital. As it is now, it is a Hospital in every sense of the word. To maintain the character it requires, however, still further aid and support. Let your readers exert themselves in the good cause. Stores, servants, and money, are all needed. Let the liberal hand of Natchez shower forth its customary offering.

More About the Nashville Ladies. The Baltimore News Sheet of the 3d says:

"The women of Nashville still continue to behave very naughtily. They have devised all manner of ingenious insults, greatly to the annoyance of the Federal officers, who cannot walk the streets without being subjected to the mortification of seeing these fair but cruel dames and damsels turn their heads upon them and draw their skirts aside from contact with them. In retaliation of these most uncomplimentary proceedings, Gen. Negley ordered a guard to be stationed at the door of the residence of two ladies who were discourteous to Gen. Crittenden, and who are not to be permitted to leave the house until they promise not to do so again."

Rev. Mr. Miller's Letter.

Corinth, April 24, 1862.

Messrs. Butler, Meeks & Co.:

Gentlemen--Although I do not at present require more funds than I have, it may be e'er long that I shall have need of more. To guard against emergencies, I have enclosed a check for $250. * * * Our whole band of nurses have been so untiring, by night and by day, that I only wonder many of them have not felt the necessity of a respite for a week or two. They have won golden opinions of all the surgeons. The Medical Director, thinking that I was meditating a
change of the field of labor for the Natchez Hospital, said he would in that event bar the doors and place a guard about, to prevent me from taking them away; remarking, "Sir, I cannot spare the Ladies." While another said, "Sir, they have saved, we know not how many lives." The truth is, the good people of Natchez have reason to thank God for the mind and ability given them to send forth such a corps of representatives to the field of Christian benevolence and self-denying duty. They have done it well, and I rejoice to say are ready and waiting to do more, should the providence of God ordain another occasion. That another and even more terrible battle is portending, there can be no doubt. But exactly where, or when it will occur, is of course all conjecture. The Mobile Band are employed at Columbus, to which point I was solicited by the Medical Director to take them near two weeks since. I return there in a few days, probably to remove them again to a place where their services are even more desirable--Lauderdale Springs.

My friends in Natchez must not charge me with neglect in writing of a matter in which they have taken so great an interest. I have really known little or no rest for body or mind since I left home, and have been at times pretty well used up, but, thank God, still able to keep on. Remember me to all the kind people and show this to whom you choose.

Yours truly,

[?] M. Miller.

[Correspondence of the New York Herald.]

Nashville, March 19, 1862.

Men do not make any demonstrations publicly, but it is plain by whom women, girls, and boys are pushed in to offer the grossest insults to officers and men. Any one of the demonstrations made by the ladies would appear ridiculous if mentioned, but it is certain that, though harmless, their actions are very aggravating to the men, particularly as the whole army has been careful to appear, if not in reality, polite as my Lord Chesterfield. Let me mention as an instance of the means employed by the fair dames of Nashville to insult our officers. Some of our Generals were standing yesterday on the sidewalk in front of the St. Cloud Hotel. While they were conversing a couple of ladies in full dress of gaudy colors, approached, followed by a great fat, dirty and slovenly negro wench. As the ladies neared the Generals they changed from a line of battle and marched to a single file, although there was plenty of room. At the same time they carefully threw their dresses aside, to prevent their coming in contact with the Generals--ten feet distant--and placed their handkerchiefs upon their diminutive nasal organs. The negro wench had been well drilled, and it was with the most serious face and admirable delicacy that she drew her hoopless skirt to one side, and put a great red bandana to her nose. One General scratched his pate with a puzzled air; another swore in approved German style, while a third appeared to enjoy the joke of the ladies, and anger and chagrin of his friends.

How the Women Make Powder.

We copy a portion of a letter addressed to Lieut. McClung at Knoxville, by a lady in Sullivan county, East Tennessee:

"I saw some weeks ago in the Register an article on the 'Making of saltpetre,' [sic] and
that the earth under old houses contained more or less nitre [sic]. I also learned that the government was in great need of saltpetre [sic], in order to make powder for our brave boys now in the field. Well, sir, I felt, though I am a woman, that it was my duty to do what I could for my country; so, having an old house with dry dirt under it, I determined to make a trial. I threw out the ashes in the ash hopper, and had two others built—I then had the dirt under the house dug up and put into the hoppers. I then run water through one of the hoppers, and then passed the water through the other two. After which I added lye to the water until the curdling ceased. I then boiled it until it was thick, when the pot was set on fire. In a few house the salpetre [sic] had formed into beautiful crystals. I poured water three times through each hopper, then boiled it down. The result is just one hundred pounds of salpetre [sic], according to my husband's weighing. It was very little trouble to me.

"Now, sir, I see you are the agent of the Government. I want to hand it over to you to be made into powder and sent to our army, to be used in defending our country."

The Knoxville Register adds that a citizen of Jefferson county, Tenn., made from the dust beneath a single old house two hundred and eight pounds of saltpetre [sic], which with the nitre [sic] and sulphur [sic] added, was conveyed into two hundred and fifty pounds of powder.

Hospital Stores, &c.

The increased number of our sick seems to be bringing out the resources of the country. Hospitals are now being established at all points upon the railroads, and kind hands are employed in ministering to the necessities of our disabled soldiers. The people of this county, ever ready for good works, have contributed largely to the establishment of Hospitals here and elsewhere, and stand ready to do more. Some of the ladies of this city have been for weeks in charge of a Hospital at Corinth. They are now en route for Brookhaven, to establish themselves there. Besides this, we have another band at Jackson, Miss. To enable these ladies to render all the service in their power, all the hospital stores, now in the city and county, are to be sent to Jackson and Brookhaven. Persons wishing to make contributions for these Hospitals, are requested to send them before 4 o'clock this afternoon, to the State Hospital.

We call especial attention to this matter now, as wagons have been engaged by the Provost Marshal, and will leave for Brookhaven to-night, or early to-morrow morning.

At a meeting of the "Young Ladies' Matrimonial Society," the following resolution passed without opposition:

"In consequence of our unprotected, unfortunate, and lonely situation, the members of this band, do hereby resolve to receive from all respectable single gentlemen, between the ages of thirty-five and ninety, any and all attentions which they may deem proper to bestow,—provided they do not forget to propose. We therefore think it wise to notify the gentlemen of our determination, as affairs are very uncertain regarding our sweethearts in the war."

For further particulars, address "Desdemona," President of the Young Ladies' Matrimonial Society.

We advise those wishing young and interesting wives to apply soon.

Offers from juveniles (those under thirty-five) will not be accepted.

Desdemona.

We exceedingly regret that fair "Desdemona" re-considered her resolution, directing all communications to be left at the Daily Courier office. We had almost fancied that she was about to place us in possession of something rich and racy, for an evening's entertainment. Being *fully* thirty-six, hale, hearty and saucy, our fair friend may yet secure our services as Private Secretary. Who knows!

Natchez Free Market Report.

We publish this morning the report of James N. Stockman, Esq., Treasurer of the Free Market, to which we direct the attention of our city and country people.

At this crisis of our military affairs, it is more important than at any previous time that strenuous exertions should be used to supply the Natchez Free Market. The Conscript Law urges more soldiers to the field, and consequently more of their families look to us for protection and immediate supplies. Let our merchants, and our planters in gathering the supplies from their gardens and nurseries, remember the Natchez Free Market for Soldier's Families.

An energetic and industrious Committee is always at hand, to see to the proper disposition of every article. While fathers, husbands, and brothers, are toiling in perspiration, and perhaps blood during this week, in the battle-field, let the "loved one at home" be especially remembered in the meantime.

The Mourner A la Mode.
by John G. Saxe.

I saw her last night at a party,
(The elegant party at Mead's,)
And looking remarkably hearty
For a widow so young in her weeds;
Yet I know she was suffering sorrow
Too deep for tongue to express,--
Or why had she chosen to borrow
So much from the language of dress?

Her shawl was as sable as night,
And her gloves were as dark as her shawl--
And her jewels, that flashed in the light,
Were black as a funeral pall;
Her robe had the hue of the rest,
(How nicely it fitted her shape!) 
And the grief that was heaving her breast 
Boiled over in billows of crape!

What tears of vicarious woe 
That else might have sullied her face, 
Were kindly permitted to flow 
In ripples of ebony lace!

While even her fan, in its play, 
Had quite a lugubrious scope, 
And seems to be waving away 
The ghost of the angel of Hope!

Yet rich as the robes of a queen 
Was the sombre [sic] apparel she wore; 
I'm certain I never had seen 
Such sumptuous sorrow before; 
And I couldn't help thinking the beauty, 
In mourning the loved and the lost, 
Was doing her conjugal duty, 
Altogether regardless of cost!

One surely would say of devotion 
Performed at so vast an expense, 
Betrayed an excess of emotion 
That was really something immense; 
And yet as I viewed, at my leisure, 
These tokens of tender regard, 
I thought:--It is scarce without measure-- 
The sorrow that goes by the yard!

Ah! grief is a curious passion; 
And yours--I am sorely afraid, 
The next phase of the fashion 
Will find it beginning to fade. 
Though dark are the shadows of grief, 
The morning will follow the night, 
Half-tints will betoken relief, 
'Till joy shall be symbolled [sic] in white.

Ah:--well!--it were idle to quarrel 
With fashion, or ought she may do; 
And so I conclude with a moral 
And metaphor--warranted new:--
When measles come handsomely out 
The patient is safest, they say,
And the sorrow is mildest, no doubt;
That works in a similar way!

A Handsome Present. Mrs. Wm. Henderson, living about thirty miles above this place, yesterday sent two hundred pounds of fresh butter to be distributed to the sick soldiers in and around this city. Such acts of devotion to our cause are certainly worthy of mention. Female patriotism and heroism does not sleep in the graves of the Spartans, neither did it die away with the last revolution, for there are women here in the South who are daily performing deeds and making sacrifices that will render the South the classic land of female patriotism for all ages, and add to the history of these times a volume that shall transcend the most illustrious chronicles of the War. A Narrow Escape. The Memphis Appeal of the 25th, learns that by the exertions of a patriotic young lady who resides between Senatobia and Cold Water, on the Memphis and Mississippi railroad, one of the trains was saved from falling into the hands of the marauding party of Federals who recently visited Cold Water. The train was conveying General Thompson with a small scouting party, and was stopped by the engineer, on a signal being given by the lady, in time to avoid the danger. Her name will be remembered by those who were saved from capture, and we regret we cannot give it to the public that a more general honor might be done.

NATCHEZ DAILY COURIER, July 2, 1862, p. 1, c. 4
A Heroic Girl. The Memphis Appeal relates one of the most heroic acts of the war, which occurred near Germantown, Tenn. Two Federal soldiers entered the dwelling of an old citizen and after being well treated, they demanded the old gentleman's money, and one of the ruffians sought to force a compliance with their demand by leveling his gun at the head of the house. The old lady interposed herself between the gun of the miscreant and her husband, and while the coward hesitated to shoot, a daughter of the aged couple came from an adjoining room, and seeing the situation of affairs, seized a double barreled shot gun, with which she shot the ruffian through the head, killing him instantly. His companion fled, while the inmates of the house remained uninjured. The heroism of that gallant young lady will be remembered when the history of the war is written.
We are not committed to publish all the correspondence of the Natchez matrimonial Society, but the following falling unexpectedly into our hands, and its peculiar interest, has induced us to give it publicity. Our feathers are gone with fair "Desdemona," the accomplished President; when the juveniles make such strong petitions and write such remarkable poetry--and from a brave soldier-boy, too!--what chance have we for the private secretaryship?

Savannah, June 20th, 1862.

To the President and Members of the Young Ladies Matrimonial Society, Natchez, Miss:

You will hereby please accept this petition, requesting you to reconsider the matter about offers not be accepted from juveniles, (those under thirty-five.) As I am one of the number, I apply for redress.

Address, Byron, Co. E, 4th La. Bat.

Hans' Wish.

I wants to marry, yes I does,
   I wants a little vife,
To vash my neck and come my 'air,
   And be my all, my life.

Ven Adam lived in Paradise
   He didn't live content,
Till from his side a ribe vos took
   And into woman bent.

Just think, how Adam must have stared
   Ven first he got a wake,
And found himself a married man
   Without e'en wedding cake.

I vish that I could do the same--
   Just go to bed some night
And wake up in the morning, vith
   A vife to bless my sight.

I'm werry bashful, yes I am,
   'Twould save me lots of trouble,
To go to bed a single man
   And wake up as a double.

The Fourth of July.

This was once known among us as the "Glorious old Fourth," but the times are not now "as they used to was!" We want to hear no more of the "Stars and Stripes"--particularly the
stripes. "Yankee Doodle" is about "played out," and for one, we care not how soon the last dying note falls upon the ear. The 22d of February is a glorious National Holiday now, and may it continue so, and the Southern Confederacy rise in grandeur for ages to come. We had heartily hoped to have chronicled the complete triumph of our arms before Richmond this morning. It may yet be done before the day closes.

Matrimonial. We publish this morning the proceedings of the Young Ladies Matrimonial Society. Although not generally intended to be made public, their action in this meeting is of more than usual interest. So far as we are concerned, the honorable appointment is very respectfully acknowledged; but we feel inadequate to perform the responsible duties committed to our charge. When properly mated, and two happy spirits were to be united in one continued tie of love and affection, the office of Grand Senior would prove an agreeable one. But when some young, lovely, smiling maiden was to be given away to a luckless "Old Bach.,” who had not tied a bow in his cravat for years, or had lived so long in obscurity that he had forgotten the use of shoe-strings--cross, ugly and disagreeable--how could we perform that part? It is too much for us! We beg respectfully to decline the position, so unanimously tendered.

The action of the Society, in the case of our young volunteer in Georgia, must meet with general approval. Besides, he has shown by his works, that he is worthy of being a partaker of matrimonial benefits--having, at the late Secessionville battle, whipped the enemy, with only one to over six against him! He surely deserves a good wife, and we feel gratified at the result of his petition. He can then appreciate the poet's beautiful lines about "gentle words" and "loving smiles;" as follows--

"It is not much the world can give,
With all its subtle art,
And gold and gems are not the things
To satisfy the heart;
But oh, if those who cluster round
The altar and the hearth
Have gentle words and loving smiles,
How beautiful the earth!"

In such excellent spirit are these lines written that an author in the Charleston Courier exclaims at their perusal: "What sweet things are gentle words--sweeter than the first young rose of summer time. Words that breathe of tenderness and love to the troubled spirit and the broken heart, are a soothing balsam, a treasure to be cherished fondly as riches, sweeter than anything earth can bestow."

Note.

The Free Market Treasury is empty,—the supplies donated are inadequate to the demand,—meat is in serious requisition by the families of our brave soldiers, whose wives and children must not suffer in their absence, and in view of these facts, and to make the burden as light as possible on each individual citizen, eighteen gentlemen of Natchez have formed a Relief Minstrel Club, and propose giving one concert a la negro, at the Institute Hall, exclusively for the
Benefit of the Free Market and the soldiers' families. Theirs is a labor of love, a work of philanthropy and patriotism, which already is heartily endorsed and should receive the zealous co-operation of the entire community.

Wheat Flour and Corn Meal.

The scarcity of these two articles in this market, induces us to make inquiry, whether some remedy cannot at once be applied? Individual enterprise in transportation of these necessaries of life has been, from some cause, almost entirely checked. Will not the Provost marshal of the Board of Police, devise some mode of supplying the Natchez Market? Our bakeries have all ceased working for want of flour—and their reason for not supplying themselves again, is the great distance, expense and trouble of transportation. Could they be supplied with flour, we are confident they would again commence baking, and he that had but one dime a day for subsistence, could be always sure of his loaf of bread. The city Council, and some of our planters, have for a long time been very liberal in the procurement of corn meal for the people; but this does not, and cannot just now, supply in full the vacancy in food caused by the necessary stoppage of the Natchez bakeries.

The Ladies.

Are requested to meet at the Courthouse, Wednesday, the 16th, when they will find clothing cut out, to be made up for the Adams Troop.

Prices of Necessities and Luxuries.

The outrageous prices at which some articles of prime necessity are selling in Natchez, is astonishing to any one rather short of cash. In these times when every dollar should be saved to aid in expelling the invaders, it matters little with us to what extreme height luxuries creep. Many of our country people have acted quite generous and liberal, in keeping the old prices on articles necessary to the housekeeper; but we occasionally hear of cases in the reverse order of things. We have in our mind's eye an instance, where a family had been trading in butter with a neighboring plantation for years; but "Missus" has of late caught the fever of the extortioner. Having run the price of her butter up from 30 to 35 cents per pound, then to 40, and again to 50; on the last trip of her servant to town, he said--"Missus charge 50 cents, but she tink it wuth 55 cents!" There is one cheering feature in the remark of the servant, the fever on the lady is about to break, and she will soon be convalescent--she thought the butter worth fifty-five cts., but did not exact but fifty.

These cases are not general, however, and we hope they will all soon come within reasonable rates—at least within the range of city purses. Situated as the city and country people are, in this our day of stagnation in business and our national trial, let our dealings with one another be as liberal as the nature of affairs will admit. We are one people, striving for one great and glorious result. When the day of our deliverance comes, let it find us a united and friendly community, ready with one impulse to push forward agriculture, mechanism, trade, and
commerce to such a brilliant height as no young nation ever before reached. For this we are toiling; for the peaceful home of Liberty we are daily, yea, hourly, repulsing the invader.

Family sickness prevented our attendance at the Relief Concert, Saturday night; but we learn, and are happy in stating the fact, that the exercises gave general satisfaction to the largest assemblage of people ever congregated in the Institute Hall. It was really a triumph to the volunteers, who compose the Club; and their performances equal, if not superior to the traveling companies heretofore visiting us. "There is life in the old land yet!"

Imposters--Served Them Right.
We understand that of late, two or three of the Natchez "chicken-thiefs" have been traveling in the country, representing that they were obtaining chickens, &c., for the Free Market. In some instances they obtained gratuitous contributions, and in others the articles were bought at low prices. Their next move was to come into town and dispose of their plunder at exorbitant rates. Our country friends, hearing of their rascality, caught two of them a few days since, divested them of all wearing apparel, and gave them a severe cow-hiding. Their infamous conduct deserved all they got, and more.

Rice Flour. This article is coming into very general use. The Atlanta Intelligencer says: We have tried it, and for battercakes and waffles, there is nothing better. Mix it with corn meal or wheat flour, and it makes excellent bread. It requires much less lard than the common meal or flour used alone.

Memphis. A dispatch from Memphis to the Cincinnati Gazette, dated the 18th, says: The fortifications here are being pushed to completion with rapidity. They will be formidable, and are intended as permanent forts of defense. Several female Secessionists were yesterday escorted beyond the Federal lines by Gen. Thayer, they having refused to take the oath of allegiance. Their husbands are among the most wealthy citizens of Memphis, and are now serving in the rebel army.

Mourning Goods.
It will be noticed that the City Council have appropriated the handsome sum of one thousand dollars "for the benefit of the needy of our fellow-citizens of Vicksburg." We are glad to see such a spirit exhibited, for it is a move in the right direction. The citizens of Vicksburg, with an unexampled patriotism, gave up the comforts and enjoyments of home and sought shelter in the woods, subjecting themselves to all kinds of privation, that a defense of the Mississippi river and the State might be made against our bitter foe ...

A Noble Act.

The Yankee authorities still continue to wage war upon the females, as will be seen by the following from the Baltimore News Sheet of the 18th instant:

Somewhat of an excitement was created yesterday afternoon on Baltimore street n the vicinity of Gay street, by the appearance of two young women on a promenade, both having upon their dresses rosettes of red and white silk, while one of them displayed a Confederate flag nearly a yard in length, waving it as she walked up the street. The police soon accosted them, and informed them that they were under arrest, escorted them to Marshal Van Nostrand's office, followed by a considerable crowd. Being presented to the Marshal they were informed that they had violated the laws, when they both asserted that they had no idea that they were doing anything wrong. It appeared the young women were sisters, daughters of Mr. John Gilpin, of Elkton, Maryland, and had arrived in Baltimore in the afternoon train intending to return by the 5 o'clock cars. They were quite prepossessing in appearance, and attracted much attention while in charge of the officers on the street. After a proper examination of the case, the Marshal decided to release them on security to keep the peace, which was secured. After being discharged, they
proceeded, in company with some friends, to the depot, and left for home in the seven o'clock cars.

Capital of ye Mississippi,

8th month, 1862, A.D.

Mons. Editor: In giving up a portion of my time to your valuable "Courier," do not think my theme shall be entirely war. ... Jackson is crowded day and night ... Cotton cards *only* $12 a pair--very low, indeed; because they commanded the high price of $50, for three months after Fort Sumter was ours.... Yes, sir, I have "done gone and did it"; yes, put on a "biled shirt" Saturday night, (a very fine cotton one, Lemly's best, only $8.) and dropped in--I forgot to mention, I paid the sum of one dollar in Cotton money--to the "Hall of Representatives," to the Concert gotten up by Prof. E. O. Eaton, (formerly of Natchez,)--assisted by the ladies of this city and adjoining country--for the benefit of the 'Vicksburg Sufferers," and it was a grand affair, I assure you. "Come, where my love lies dreaming," was a trio. "Her bright smile haunts me still," was very good. "Come into the garden, Maud," was "done up" agreeable by our friend Hobbs. But the great treat was Mrs. Kennedy of New Orleans, who volunteered at a late hour--having just arrived. Her songs were not on the bills, but oh, she sings grand. "La Manola" she sang three times, "bringing the house down." She sang two other French songs from the Operas--both of which she sang sweetly and in regular operatic style. ... Asa Klubs.

Capture of Murfreesboro'.

The Women in Battle.

The Bristol (Tenn.) Advocate gives some interesting particulars of the capture of Murfreesboro' by Col. Forrest. It says:
... Never were soldiers hailed with more enthusiastic expressions of gratitude and exultation than were the Confederate soldiers hailed by the citizens of the town. Numbers of them, including not a few ladies, joined in the bloody conflict, and with pistols and everything else with which they could fight, assisted in dealing dismay and death upon the hated invaders of their homes and their rights.

It was yet early in the morning when our forces commenced the attack, and many of the ladies of the place could not be restrained from rushing into the streets, with disheveled hair and in their sleeping attire, cheering our soldiers, and when any would fall, or were wounded, they would clasp them in their arms, assisting in heaving them to their houses and ministering to them as to delivering angels, and when our officers would remonstrate, telling them that they were in danger from the shots of the enemy, they would reply that the Lord would defend them and that it was no greater peril than that to which their gallant defenders were all exposed. ...

The Knoxville Register also contains some particulars of the fight. It says:
As Colonel Forrest's command was marching through Cannon county, on their way to Murfreesboro', the citizens crowded the thoroughfares, cheering our gallant men with every demonstration of joy. The ladies everywhere were particularly enthusiastic. Some of the citizens of Cannon had been arrested and were confined in prison at Murfreesboro'. The ladies besought our men, with tears in their eyes, to rescue their husbands and fathers from the hands of the tyrant. One little girl ran up to that old patriot and soldier, Captain Haney, of the 1st Georgia cavalry, and wringing her hands, implored him to bring her father back to her again. The old man turned to her, with his whole soul beaming in his face, and exclaimed, while the manly tear started to his eye, "I will, my daughter! I will!" The result proved the truth of his words. ...

As our little army went dashing into Murfreesboro', awaking the echoes by the rattling of their horses hoofs "o'er the stony streets," the whole population were aroused from their slumbers, and rushed to their windows, balconies, and verandas, with every demonstration of delight. Ladies could be seen kneeling in postures of thankfulness to Heaven for the day of their deliverance. As the morning advanced and as the fight thickened, the same fair ones were in the streets in spite of the whistling of the balls and rain of lead, administering to the wants of our soldiers, filling their canteens with water and their haversacks with an abundance of provisions. Unheeding the shots from the enemy's guns, they thought only of the comfort of their gallant champions. One lady received a ball through her dress, whilst another had her parasol shot from her hand, the ball passing within two inches of her jeweled fingers. Such heroism has never been known in the annals of war, and will illuminate to the remotest generation the history of our glorious land.
Gen. Forrest, in his late tour through Tennessee, passed within three miles of Nashville. A letter gives an interesting incident of his trip:

On the way Gen. Forrest and Col. Lawton stopped at the Hermitage, who, with several of our officers, were most cordially received by Mrs. Andrew Jackson, Jr., and her sister, Mrs. Adams. A large party of ladies and gentlemen had come down from Nashville to celebrate the battle of Manassas (21st July) at the Hermitage, which is only twelve miles from Nashville, and the arrival of Gen. Forrest increased the enthusiasm and delight of the party, the ladies evincing the wildest joy and patriotism, and a "good time" prevailed generally. Mrs. Jackson, who has two of her sons in the Confederate army, expressed the strongest hopes of the early independence of our country, and bade God speed our men and our cause on the officers taking their leave. The whole brigade had now come up within five miles of Nashville, and encamped in a beautiful grove to refresh themselves and horses. After a brief rest they were in the saddle again, and, leaving the Lebanon turnpike to the left, took a circuitous road, and passed by the Minerva Institute three miles from Nashville. As our men rode by the ladies filled the corridors, porch, and balconies, and waved their handkerchiefs amid a perfect storm of joy and excitement, crying, "God bless Forrest and his men."

Stockings for the Army.
The Ladies only Rest for Lack of Yarn.

There is an old adage, which has run through ages, that "In time of peace we should prepare for war." In these days of war, desecration and bloodshed by the meanest of enemies, the noble women of our own Sunny South--the land of fair savannahs and crystal lakes--of the palmetto and magnolia--have rendered this adage in a different form: they now have it "In summer prepare for winter"--and gloriously have they so far responded to the maxim.

We are happy to learn that both in city and country, the lady friends of the soldier have been making preparations for their comfort in the winter. Our own volunteer companies, we understand, have been nearly or quite supplied, but there remain several weeks yet in which to push forward the good work of knitting stockings for the army. In one locality of Adams county, we have already heard of one hundred extra pair of army socks; and there are doubtless many more accumulating in other portions of the county. In the city, many good knitters are idle for the want of yarn. Cannot they be supplied. Let us remember that time now is precious, and that the soldier must be warmly clad as he advances on the enemy's country next month. ...

To concentrate our energies, and to further to object contemplated, we are requested to state that Mr. R. M. Spurgeon, of the Courier Office will receive all stockings or socks that are now ready, and pack and direct them to the points desired. He will further take charge of any yarn that may be appropriated for the good purpose, and use his best endeavors to have it distributed where it will be promptly knit into socks.

Let us at once put forth our best efforts for this most essential branch of the Home Service.

Another Call.

Colonel Johnson, of General Price's staff, has issued the following call:

To the People of Mississippi.

Quitman, Miss., Aug. 6. I am in your midst for the purpose of procuring shoes and yarn socks for General Price's army. Some of his veterans—men who have been in six or eight pitched battles and twenty skirmishes—are to-day destitute of these two articles, necessary even in camp, but indispensable when the army takes the field. ... Gen. Price desires that the patriotic men of this State should furnish the shoes, and her glorious women the yarn socks. If possible, he would like every white woman in the State to knit at least one pair of socks for his army. While I make this appeal, I think it is proper to add, that I do ask a donation but am prepared to pay a liberal price for both shoes and yarn socks. I shall be pleased to contract with tanners and shoe manufacturers for shoes now on hand, or to be made hereafter; and will be obliged to any person who will let me know where I can make contacts.

For socks, all yarn, white or colored, of good size and length in the leg and foot, I will pay seventy-five cents per pair. They may be sent to me or to Dr. France at this place, where they will be paid for, or may be left with the station agent of the nearest depot of any of the three railroads now in our possession, and sometime soon I will call or send an agent to get them and pay for them.

Sale of Southern Bells.

Col. N. A. Thompson sold at auction yesterday forenoon, at Lombard's North wharf, East Boston, the lot of church, plantation, school, factory, and other bells which had been presented to the rebel government to be case into cannon, but which were captured at New Orleans and confiscated. The sale was numerously attended. There were 418 bells in all. ... One, very elaborately ornamented, was from the First Presbyterian Church, Shreveport, Louisiana. Col. Thompson, before beginning the sale, read a note from a Mr. DePeyster, of Dutchess county, New York, who desired the privilege of purchasing a bell which he gave several years ago to the Episcopal church at Nacogdoches, Texas. ... --Boston Courier, July 31.

Dear Courier: ...

While I speak of my voca-bull-ary, I have a few new words to add:

Ju-lark-kie--Supposed to mean a young man of tender years, fighting for the Confederacy at $11 a month. The French use the word Beaux instead.

Git--To move; to travel. For instance, an enraged "parient," when he wishes to tell his daughter's Ju-lark-kie he has no business in his house, he merely says, "young man Git"--and singular to relate, said young man remembers he has "business elsewhere." ... Asa Klubs.

Incidents of the Bombardment.

... The Essex and her transport left the same evening for Vicksburg and Cairo--so the officers stated to a gentleman across the river. ...

The direct, raking fire of the enemy, under the hill, caused considerable destruction to buildings in that locality, and the wonder with every one is, that there was no more destruction of human life. When they opened fire on that port of the city, every house was crowded with women and children; and yet, through a merciful God, they all escaped except the young daughter of Mr. A. Beekman. Mr. Jas. Curry's hotel, the Barber's shop, and many other buildings, were completely riddled with shot and shell.

On the hill, the stores and houses of many of our people were hit, but with less destructive effect. We have not heard of even one person being wounded, although numbers of their shells fell in the most densely populated parts of the city. The work of the Federals having commenced without a moment's warning, the men, women and children were of course all at home in the city. Their preservation was miraculous.

Clothe the Soldiers.

Governor Shorter, of Alabama, has addressed a stirring appeal to the ladies of that State, calling for assistance for the soldier. He says that the government will not be able to supply socks for the whole army, and reminds them of the importance of clothing to the soldier during the ensuing winter. Those who cannot afford to furnish such articles of clothing gratuitously, will be paid at the rate of fifty cents a pair for heavy cotton, and seventy-five cents for good woolen socks. The aid societies and judges of the probate courts throughout the State will act as receiving agents, and forward at the expense of the State to the quartermaster at Mobile, or to the assistant quartermaster at Montgomery.

Raw-Hide Shoes.

The following interesting item to planters, escaped our notice when first published, but an estimable citizen of Adams county informs us that he is about trying the article, and thinks it will answer every purpose. It is extracted from the Jackson Mississippian:

Capt. Clark Owens, of Texana, Jackson co'y, Texas, has a company of eighty men, now stationed at Houston, Texas, defending the coast, and the city of Galveston. Many of the gallant soldiers are well shod with raw-hide shoes, which in symmetry and utility are not behind the best shoes used in our southern Confederacy. The beef hide is placed in water and ashes, and remains there until the hair will come off; the hide is then soaked in fresh water, and rubbed until the lye is extracted; it is then soaked in strong salt and water, from forty to ninety hours--this prevents the hide from ever becoming hard and horny; it is then dried in the open air, not in the sun, and then beat with a maul or mallet, until it becomes pliable as leather; it is then made into shoes as shoemakers make other shoes; the upper part and soles are all of this prepared raw-hide, and made by sewing or pegging on the soles. The shoes are then well greased with oil, hog lard or
tallow; greased all over the outside, both upper and bottom parts; this renders the shoe waterproof, and in every way as valuable as the leather shoes. These shoes are made with the grain or hair side out and in every respect are a cheap and valuable shoe.

Arrest of a Young Lady. Miss Green, a loyal young lady in one of the northwestern counties in Virginia, was arrested and put in jail in Buckhannon, Upshur county, on a charge of cutting telegraph wires in the Yankee army. When interrogated, she confessed she had cut the wires, and said that she would do so again if set at liberty, at the same time refusing to take the oath of Yankee servitude. One end of the wire cut was found stuck in the ground several inches, and when asked why she did that, she replied that a great many Yankees had been killed, and as that wire pointed the way they had gone it would doubtless be used to know if there was room for any more.--Richmond Dispatch, Sept. 2.

Since her first entrance on hospital duties, Mrs. Glassburn, like our brave soldiers, has gone onward, leaving the comforts of home behind, to lead an unsettled life, for the purpose of seeking the point where she can by her kind attentions to the sick and wounded accomplish the most good. Nor would I omit to mention the names of those associates with her, in this work of self-denial and benevolence--Miss M. Glenn, the Misses Fox, and one or two others whose names I do not know. Please give this notice an insertion in the Courier--not for the sake of giving notoriety to these ladies, for that I know is not what they are laboring for--but to show them and others that we appreciate their labors of love; and to assure those of our soldiers who may be sent to that region of country, that they will find in Mrs. Glassburn, and those associated with her, not only kind and devoted nurses, but true and faithful friends, should they need their services.

Spirit of Georgia Women.
Mrs. Laura Jeans, wife of Vincent Jeans, of Wilkinson county, lives a few miles from Milledgeville. She is a delicate, weakly young wife, nursing her first child. Her husband is a soldier, a volunteer, at Cumberland Gap. They refuse to accept of public bounty, and support themselves. Besides many other labors this noble woman has, with her own hands, made about 150 bushels of corn, and now, in these burning dog-days, may be seen, wet to the waist with honest sweat pulling fodder! Her market basket is sometimes in our streets with peaches, or other small articles of food for sale at moderate prices. And thus she turns her hand from one thing to another, to earn an honest support during the long absence of her really fond and ardent soldier-husband in the war.

Such an example is an honor to Wilkinson county--an honor to Georgia!--and is equal to the brightest instances of patriotism to be found in any circle of society. LIBERTY.

To Crochet Workers. One of the most acceptable presents a young lady can forward to her "jularkie" in the army, is a woolen helmet, made to draw over the head, down as far as the breast, leaving an aperture of about five inches, so that the eyes, nose and mouth may be uncovered. Upon a bitter cold night, when the soldier is on guard, as he draws his helmet over his head he will thank his lady-love for her acceptable present, and bless her for thinking so kindly of him. It protects the head and throat admirably, and almost secures complete exemption from bronchial affections. Those soldiers who own them, value them very highly.

To the Ladies of Mississippi and Alabama.

Two months ago a call was made upon the ladies of Mississippi to furnish socks for Gen. Price's army. The gentleman who made the call, is informed that the ladies of Mississippi are doing all they can to answer it. Finding it impossible in many sections of the State to get wool, they are doing the next best thing--knitting cotton socks, which will be highly acceptable to our brave men. Each soldier ought to have at least two pairs of socks. As the manufacture of so many pairs (which ought to be done in a short time) may entail too heavy a burden upon one State, it has been determined to appeal to the ladies of Alabama to aid in the work, more especially since the Alabamians now compose a part of the army of the Tennessee. If each lady of these two States will furnish one pair of socks, it will give the army more than an abundant supply. These articles are for the use of the whole command without distinction, and no lady knows but what the very pair she knits, may be distributed to some noble fellow who is near and dear to her by the ties of blood or affection. The socks, whether of yarn or cotton, should be thick and of good length in the leg and foot. Hundreds of ladies will donate these articles, but there are many who cannot and ought not to give them. To such, seventy-five cents will be paid for yarn, and fifty cents for cotton socks, by Major Brinker, at Tupelo....

NATCHEZ DAILY COURIER, October 4, 1862, p. 1, c. 1

We direct attention to the notice relative to the Free Market. We are informed that if the call there made, is not promptly responded to, the Committee will be compelled to close the market entirely, for want of supplies.
To the Patriotic and the Generous!

There are about one hundred and fifty families of soldiers in our midst. The Natchez Free Market is exhausted. While our gallant citizens in the army are assured that their wives and children are above want, and well supplied with necessary food, their hearts are at ease and their hands nerved to strike down the foe. This assurance should be given by all at home, who can contribute to this great moral influence upon our forces.

The crops and harvest of grain and other food are now yielding their rich produce. Planters, farmers, every one whom God has blessed with abundance, or more than enough for himself and his household, listen to this appeal! Give up your surplus! Give freely! Give at once! It is a noble charity—a patriotic duty—it is a solemn obligation!

COMMITTEE.

E. Lewis advertises to-day, a supply of Sewing Needles, Chewing Tobacco, Starch and Soda, which will be in store to-morrow. These articles are scarce, and persons wishing them should call and purchase immediately.

Wanted--Wool for Army Socks.

A friend informs us, that he has cards and a spinning-wheel for yarn, and that he will cheerfully undertake the making of a few more pairs of socks, if any one will furnish the wool at the Courier Office counting-room. Who will bring forward the one article needful?

Negro Shoes. Wooden soles for making negro shoes, for sale at thirty cents per pair, for cash.

Alex. C. Ferguson. Oct. 18.

The Military Board of Concordia have established a Free Market at this place for the benefit of the wives and families of the Volunteers from this Parish, who are now residing in Natchez. They call upon the planters of Concordia to bring up their contributions of the necessaries of life for the benefit of these destitute families. Though Concordia has done nobly for the cause, yet it is not expected that this imperious call will pass unheeded. It is unnecessary to remind our citizens of the vast interests they have at stake, and that these are held from the remorseless grasp of the enemy only by the point of the bayonet and at the mouth of the cannon.
We know the brave ones who have periled their lives in this bloody contest, we know those who have fallen to rise no more, and if we would cheer the spirits and nerve the arms of those warworn veterans that remain, let them hear the glad tidings from their loved ones at home that they are made comfortable and happy. It is well known to the writer and many others that some of these families have suffered and are still suffering for these common necessaries of life; this should not be so while the means are so plentiful for supplying them. The wants of the soldiers' wives and families should be the first and special care of every true patriot.

All articles of family consumption may be left at the Sheriff's office at Vidalia for distribution.

We saw rock selling in Natchez, yesterday, at 30 cents per pound. This price, however, compared with some other articles of trade, is quite moderate. Everything, except corn-meal and the sweet potatoo [sic], has resolved itself into a luxury, and why not demand starving prices! Who cares, so that the speculator fattens on the ribs! Flour $50 per bbl.; lard 75 cents per lb.; and other things in proportion;--all luxuries! The world yet wags! So does the extortioner!

For the Suffering Soldier.

We wish to buy every Blanket, Comfort, Sock and Shoe for the army. Fifty thousand men languish in the Hospitals and shiver over cheerless fires, that could now be put in the field to fight. Much has already been done, and much more yet remains to be done.

Two of the steamboats, unemployed on the river, have given their bedding, carpets, &c., to Major Mims, to be used, as blankets for the Southern soldiers. An appeal is made to this city and county, for similar appropriations. Better, far, that our extra blankets and all our carpets should be in the hands of our brave volunteers, than they should be destroyed by Federal soldiers.

No subsistence will be sold to officers' families. When an officer has his family with him, where he is stationed on duty, he may draw a limited amount of such stores, on his certificate on honor that the stores are exclusively for himself and his family. He must pay cash, or deposit a pay account with the commissary, on which it may draw. Under no other circumstances whatever will commissaries be permitted to issue stores to officers—and then, only such articles as are a part of the rations regularly issued to soldiers at the time.

Socks for the Army.

Capt. Horne, of the 3d Kentucky Regiment, is here, just from Holly Springs, for the purpose of getting socks for his company. They are entirely destitute of socks, having lost all their camp equipage and clothing in their retreat from Corinth. He says this was general, and the Government has not enough for that whole army, and consequently he wishes to get them in the vicinity of Natchez. He will be here until the 17th inst., and any person wishing to contribute as above, will leave them at the Provost Marshal's office. If more than enough for the Captain's company are deposited, he would be glad to take them to the balance of the regiment.

The Disaster.

[From the Daily Mississippian, Nov. 7.]

About half past three o'clock on Wednesday afternoon, (the day before yesterday) our city was the scene of one of the most appalling disasters that it was ever our misfortune to witness, the results of which are heartrending. At the above hour one of the buildings, about three squares back of the Bowman House, used by the Ordnance officers for the manufacture of ammunition, exploded with an awful crash that shook every house in the city, and caused the greatest alarm and excitement ... The two story brick building used as the laboratory was blown to the smallest atoms, and the debris were scattered for several hundred yards around. All the men and women employed in the building at the time, had been hurled to instantaneous destruction. Shockingly mangled bodies of both sexes lay around in the most frightful and horrible positions, besides blackened and disfigured so as to almost defy identity as human beings. ... The body of a poor girl was hanging by one foot to the limb of a tree, she was evidently dead, but her clothes were still burning. ... only two out of twenty-one young women are known to be saved--twenty-nine bodies through the humane exertions of the Mayor and his attendants, have been gathered together for burial. Some of them have not been recognized, so severely have their features and bodies been distorted. ... The unparalleled fact, of the great proportion of the victims being hapless women, is dreadful indeed, and serves to make this the most truly melancholy record we ever penned. ... The Horrors of War.
A Wife on the Battle Field.

The following extract, from a letter, dated Corinth, on the 6th ult., has been communicated to the New York Evening Post for publication:

"Oh, my friend! how can I tell you of the tortures that have nearly crazed me for the last three days! Pen is powerless to trace, words weak to convey one tittle of the misery I have endured. I thought myself strong before. I have seen so much of suffering that I thought my nerves had grown steady, and I could bear anything; but to-day I am weak and trembling like a frightened child.

"But do not wonder at it. My dear husband lies beside me, wounded unto death, perhaps. I have lost all hope of saving him, though I thank God for the privilege of being this moment beside him. And besides this, all around me the sufferers lie moaning in agony. There has been little time to tend them, poor fellows. True, the surgeons are busy all the time, but all the wounded have not yet been brought in, and it seems as if the time will never come when our brave men shall have been made as comfortable as circumstances may permit. It is awful to look around me. I can see every imaginable form of suffering, and yet am helpless to aid them any of consequence.

"Since night before last, I have not left my husband's side for a moment, except to get such things as I required, or to hand some poor fellow a cup of water. Even as I write, my heart throbs achingly to bear the deep groans and sharp cries about me. F. is sleeping, but I dare not close my eyes, lest he should die while I sleep. And it is to keep awake, and in a manner relieve my overburdened heart, that I am writing to you now under such sad auspices.

"On the morning of the 3d inst., the fight begun. The attack was made on General McArthur's division, and we could plainly hear the roll of the artillery here, as it is about two miles and a half distance only from this place. Oh, the fearful agony of that awful, awful day! I had seen F. a moment early in the morning, but it was only a moment, when he bade me goodbye, saying hurriedly as he tore himself away: "Pray for me, my wife, and, if I fall, God protect you!" There was something in his look and tone which struck a chill to my heart, and every moment after I knew the fight had begun, I felt as if he had indeed fallen. I cannot tell how long it was before I heard that Oglesby's brigade was engaged, but it seemed an age to me. After that my agony was nearly intolerable. I never had a thought of fear for myself; I was thinking only of F. Then I got the word that he had been hotly pursued by the rebels, and had fallen back.
"Later in the afternoon I succeeded in gaining a little intelligible information. Poor Gen. Hackleman was shot through the neck while giving a command, and fell mortally wounded. He died between ten and eleven o'clock the same night, I have since learned. Up to the time of receiving the wound he had acted with the greatest bravery and enthusiasm, tempered by a coolness that made every action effective. When dusk at last put an end to the first day's conflict, I learned that General Oglesby had been dangerously wounded, but could gain no intelligence of my husband. I could not bear the suspense. Dark as it was, and hopeless as it seemed to search for him then, I started out to the battle-field.

"Oh, how shall I describe the search of that night? It looked like madness. It was madness. But all night long I struggled amongst bleeding corpses, over dead horses, trampled limbs, shattered artillery--everything that goes to make up the horror of a battle-field when the conflict is over. They were removing the wounded all night.

Oh, think how awful to stumble over the dead and hear the cries of the wounded and dying, alone, and in the night time. I had to start off alone, else they would not have let me go.

"As you may suppose, I could not find him, either among the living or dead. But the next morning, just after sunrise, I came to a little clump of timbers where a horse had fallen--his head shot off and his body half covering a man whom I supposed dead. His face was to the ground, but as I stooped to look closer I perceived a faint movement of the body, then heard a faint moan. I stopped and turned the face upward. The head and face were both covered with blood, but when I turned it to the light I knew it in spite of its disfigurement. Oh God, the agony of that moment sickened me almost to suffocation. With a strength though impossible in me I drew him, crushed and bleeding from beneath the carcass of our poor old horse, whom we had both so loved and petted, and, dipping my handkerchief in a little pool of water amongst the bushes, bathed his face and pressed some moisture between his parched swollen lips. He was utterly insensible, and there was a dreadful wound in his head. Both limbs were crushed hopelessly beneath the horse. He was utterly beyond the reach of human skill to save, but as soon as possible I had him conveyed to the hospital. I have nursed him ever since, hopelessly and with a heart breaking with grief. Oh! how many wives, how many mothers, are to-day mourning the dead and dying! He has not opened his eyes to look at or spoken to me since he fell. Oh! could he but speak to me once before he dies, I should give him up with more resignation. But to die thus--without a look or a word! Oh, my heart is breaking!"

Diana Smith, the Heroine of the Northwest.

A friend has kindly furnished us with some interesting particulars in the history of this young heroine.

She was born and raised in the county of Jackson. Her father is a consistent and pious member of the Methodist Episcopal Church, and was leading a quiet, peaceful and useful life, until his country was invaded, when he called his countrymen to arms, and raised the first company of guerrillas, which he commanded until this fall, when, by fraud and treachery he was captured, and ever since has been confined in a loathsome dungeon at Camp Chase, Ohio, without hope of delivery, unless our Government should interpose and procure his release.

Diana, his only daughter, is a beautiful girl, and has been tenderly raised, and well educated. She is also a member of the M. E. Church, and has always been regarded as very
pious and exemplary. She is descended from a race of unflinching nerve, and satisfied with nothing less than freedom as unrestrained as the pure air of their mountain home.

Her devotion to the cause of Southern rights, in which her father had nobly engaged, has caused her, too, to feel the oppressor's power. Although a tender and delicate flower, upon whose cheek the bloom of sixteen summers yet lingers, she has been five times captured by the Yankees, and marched sometimes on foot, in manacles, a prisoner, once a considerable distance to Ohio, at which time she made her escape. She was never released, but in each instance managed to escape from her guard. She, too, has been in service; she was in several battles in which her father engaged the enemy. She has seen blood flow like water. Her trusty rifle has made more than one of the vile Yankees bite the dust. She left her home in company with the Moccasin Rangers, (Captain Kelser,) and came through the enemy's line in safety, and is now at the Blue Sulphur Springs. She was accompanied by Miss Duskie, who has earned the proud distinction of a heroine. On one occasion this fearless girl was surrounded by fifty Yankees and Union men, when she went rushing through their ranks with a daring that struck terror to their craven hearts. With her rifle lashed across her shoulders, she swam the west fork of the Kanhawa river, and made her way to the Mountain Rangers; preferring to trust her safety to those brave spirits, well knowing that her sex would entitle her to protections from those brave mountaineers. These young ladies have lain in the mountains for months, with no bed but the earth, and no covering but the canopy of heaven. They have shared the soldier's rough fare, and its dangers, his hopes, and his joys.—Virginia paper.

Army Correspondence.
From the Mobile News.

Holly Springs, Oct. 31. The noble women of Mississippi have again elated the hearts of our brave and suffering troops by a timely and welcome contribution of 1,400 pairs of socks, which are now being distributed to poor fellows nearly--some entirely--barefooted.

Could the generous ladies of Natchez and of Columbus but witness the distribution of their donations and know how they are ameliorating the sufferings of the soldiers; could they seen the joy that lights up, like a soft sunbeam, the countenances of the brave fellows at the receipt of such welcome testimonials of remembrance from fair and gentle hands; could they but hear their grateful thanks and praises, how fully would they feel repaid for the noble work they have so generously undertaken. Could they see, as they might frequently, stalwart, noble specimens of manly nature melted almost to tears by the receipt of such presents, sometimes by chance accompanied by names dearly cherished of old, and now recalled by a like name inscribed in neat chirography, recalling scenes of home and its loved ones; could they know and feel all this, these fair ladies would feel thankful indeed that they were able to impart such happiness to their patriotic and suffering defenders.

A little note accompanying such tokens of careful remembrance, having written in it, in neat characters, "Mary," "Nannie," "Hattie," or whatever the name of the generous donor may be, together with a cheering word, often softens a heart and melts a nature hardened and apparently implacable, awakening feelings of tenderness which long have slumbered and almost become forgotten. More especially does this apply to Kentuckians, Tennesseans, and Missourians, brave and noble men, who, when their own homes were wrested from them by the tyrant's mandate,
have locked arms with their brothers who are in like danger, forsaking their homes, their joys, everything but liberty, spilling out their hearts' blood, a consecrated communion, as free as water, upon fields rendered immortal by their valor and prowess. To these men of dauntless daring, who are far away from their homes and their loved ones, and the hands of whose fair women, tied and trammeled by the despot's chains, are unable to contribute to their comfort, how pleasant is the thought that we are a national and sympathetic brotherhood and sisterhood, as evinced in the kind care of the ladies of the South, noble, self-sacrificing women, whose shibboleth is universal goodness.

I have before me a little note which accompanied a pair of socks from Natchez, which fortunately fell into the possession of Capt. MacLean, of Gen. Price's staff. In the neatest imaginable chirography is inscribed: "For the Giant of the West, From Sallie--kill a Yankee for me!" Whoever patriotic Sallie intended the present for, it certainly fell into the hands of one of the "giants of the West," in the person of dauntless "Mac." Indeed, they could scarcely have failed to have so had they been allotted to either General Price or his staff, who have won the title of "giants in person and giants in fight." The old "Tycoon" himself is over six feet two inches in height, and his weight does not fall much below 200, and in both of these respects he is equaled by col. Taylor and Capt. Loughborough, MacLean and Gains, of his staff.

Though the socks donated by the ladies of Natchez and Columbus have gone far towards making comfortable a portion of the Missourians, Arkansians, Texans, Mississippians and Alabamians of Gen. Price's command, they are but as a drop in the bucket. Let the ladies of the latter States continue to exert themselves still further for the comfort of the brave and gallant defenders of their homes and honor--each one at least contributing a pair of socks and forming together a working and contribution society, where every member will be thanked and blessed by those brave men around whose troubles and trials you will be throwing a softening guise and holy influence, worthy of as great consideration as their personal comfort. Many generous women find themselves thanked by letter from those soldiers who they have aided; and no doubt could all our soldiers learn the names of their considerate benefactors, as many as could find writing material would do likewise. In the name, then, of those of our troops who are unable to do so, and in the name of the gallant and beloved General who leads them forth to battle, to whose Sterling patriotism they bow, and under whom they go forth to battle regardless of the Price of victory in bloodshed and suffering, thanks are hereby returned collectively to the generous ladies of Mississippi.

Wooden Soles for Shoes.
Public attention is directed to the advertisement of Mr. M. Sparling, in to-day's paper. This war, and the infamous blockade of our corrupt enemy, has brought forth many sparks of latent genius from our people. The plans for furnishing shoes to planters, for their servants, have been varied. The wooden sole is now generally used, and Mr. Sparling, at the saw-mill of Andrew Brown, Esq., is prepared to meet large demands. He only needs a smaller steam engine to meet all his requirements. Cannot his want be supplied?

How to Color Thread. Prepare a lump of beeswax by mixing into it while in a molten state, enough of soot to make it perfectly black. When cold it is ready for use. By drawing a white thread of cotton or silk over this twice, you will have grey thread, and by repeating it you will have it black, and good enough for nearly every purpose.

We have said that our Christmas dinner was an almost certain thing, as there were but few items yet to gather to make the whole complete. We have the water to make our coffee--but no coffee; the same to make a cup of tea--but no tea. Corn in abundance to feed a pig and turkey--but have none to feed. Corn-meal for the chickens to furnish a chicken-pie--but there is not one to cackle about the yard. The stove and wood, sugar and molasses, to make a Christmas cake--but wheat flour has long since departed. If we fail in time to get these little articles for our Christmas, we feel almost sure of obtaining a steak in market; this, with a supply of corn-meal and molasses, and an abundance of Adam's ale, will make up a nice Confederate dinner. Failing in our expectations, however we shall not invite friends to the repast.

To be serious again, will not our friends in the country remember the families of our brave volunteers, at the approaching Christmas Holydays? If you have not the luxuries to give, send to the Free Market the substantials--a quarter of beef, a sack of meal, or a load of wood. What better season could we select for a soldier's offering, than that of a "Merry Christmas."

"Driven to the Wall." We never saw this old adage more fully illustrated, than by a copy of the
"Confederate States," published at New Iberia, La., for which we are indebted to Lieut. E. W. Lindsley. It is printed on the white side of wall paper—the other side being beautifully covered with fancy paintings. The proprietor was verily "driven to the wall" for the want of printing paper.

Cotton Cards.

A correspondent of the Augusta Chronicle and Sentinel, says:
A box of Cotton cards manufactured by Messrs. Lee & Co., Cartersville, were exhibited at the Milledgeville Hotel to-day. They are perfect models of the Whitmore card, and are made on a Whittemore machine, which was brought through from Baltimore by some of the enterprising members of the firm. They sell the card at $10 per pair. I saw a letter from Gov. Shorter, of Alabama inquiring on what terms 50,000 to 100,000 pairs could be furnished for that State, and offering to make any advance necessary to facilitate the contract. It is proposed for the State to take an interest in the establishment, and members of the firm are here now to negotiate some arrangements by which the State shall be supplied. These cards formerly cost about 15 cents a piece at wholesale, and a supply ought to be furnished the State at prime cost, which is about $3 per pair at present. Messrs. Lee & Co. deserve credit for putting the price of them at even $10, when the demand is clamorous [sic] at $25 and $30 per pair. They have secured a splendid enterprise, and will deserve any harvest it may reap them. If the women who can use them were promptly supplied, there would be little occasion for the use of the $1,500,000 appropriated to clothe and shoe the soldiers.

How They Go to Bed

. . . Having ascertained that she is really alone, she leisurely proceeds to divest her form of "the silk and linen conventionalities of society." First she relieves her glossy hair of the pins and combs which enthral it and "does it up" more completely. Then off comes the little collar, and light vapory cloud of lace she calls undersleeves, which all the day have been clasp around her white plump arms, by a couple of india rubber straps. Next the love of a spring silk dress is
unfastened in front. Then sundry waist strings and button straps are loosed, and lo! what a collapse like Lowe's big balloon. She stands like Saturn, the centre of rings. There they lie upon the soft carpet, partly covered by the linen underfixings and overfixings, with no more expression in them than there is in the bare floor beneath the carpet. Sits she upon the bed, and begins the unlacing of gaiters, and the disrobing of those fair swelling limbs of the stockings. The pretty little foot is carefully perched upon the knee—down drops the gaiter, off comes the elastic, and her thumb inserted at the top of the prunella. So with the other foot, only involving a slight change of position. There is a smile that peeps out from behind the blushes of her sweet face, now, as standing before the glass, she places upon her head the night cap, and with a quick twist of her fingers ties the bewitching bow. Then the night gown is thrown over the frilled chemise, concealing the heaving bosom, and the shoulders in the linen folds. Then the counterpane and sheets are thrown back, the gas is turned down—very, very low—and the little form presses the yielding couch, and the angel goes off into the world of dreams.

[then description of her brother going to bed upstairs]

Remember the Volunteer's Family!

What more appropriate time than Christmas Week could be selected to remember the families of our patriotic volunteers! There is many a family in town that would be made glad by the present of a turkey, a goose, a brace of chickens or ducks, or a roast of beef. We are as one man, struggling for the triumph of one great principle; then let those who are able, remember
those who are not in possession of the good things of life. If we look about ourselves, we will find that we are abundantly able to do much; and if we look a second time we will find those who are worthy to receive our donations.

The time and the occasion is one that should bring out the finest impulses of the human heart. Under such circumstances [cut off]

Cotton Cards. We learn from the Augusta Chronicle and Sentinel that the cotton card manufactory of Messrs. Lee & Co., Carterville, has been removed to the State Penitentiary at Milledgeville, Ga. In a few weeks other machines will be duplicated, and that they will be enabled to fill very heavy orders. It is the design of the authorities of the Empire State to put the cards at a small margin on cost, which in the course of a few months will enable families to supply themselves with cards at about $5 pair.

Brave and Bonny Ladies. The Murfreesboro' correspondent of the Columbus (Ga.) Sun relates the following instance of female heroism:

Misses Mary Burton and Emma Reese live near Goodlettsville, on the farther side of the Cumberland river, in ten miles of Nashville. Their homes are in the possession of the Yankees. These young ladies have brothers in Bragg's army, desiring to bring them blankets and clothes made by their own fair hands, they concluded to put off on horseback for Murfreesboro'. Placing the blankets under their saddles, and wearing the clothing under their own, they left home, veritable female Gil Bla's, seeking adventures. After passing through the Federal lines they swam the Cumberland, and then took tortuous paths through unknown woods and came to Murfreesboro', distance over sixty miles, in two days. On the way they stopped to have their horses shod, when a squad of about fifty Yankees came suddenly upon them. One of the most inquisitive asked why they had so many blankets on their horses, whereupon they replied because their backs were sore.

I have a list of the articles each brought, and had I not promised not to divulge secrets, would give them. Suffice it to say, they are almost incredibly numerous.
Miss Burton is a perfect pink, and with personal beauty, combines the attractions of a cultivated mind, polished manners and a benevolent disposition. The tinge of Hebe is on her cheeks and the grace and elasticity of Diana in her steps.

Remember our Soldiers.

The citizens of Adams and the adjoining counties, and adjacent parishes of Louisiana, are informed that a local Agency has been established at the store of Mr. James Carradine, to receive contributions in Blankets, Carpets, Comforts and Socks, for our brave soldiers of the army of the Mississippi, who are imperiling their lives, and are exposed to the frosts of winter in defending our homes. We ask in their behalf prompt action. All contributions will be forwarded to Major L. Mims, Chief Quartermaster, Jackson, Miss., who will have them promptly distributed where they are most needed.

A Female Soldier. Among the strange, heroic and self-sacrificing acts of women in this struggle for our independence, we have heard of none which exceeds the bravery displayed and hardships endured by the subject of this notice, Mrs. Amy Clarke. Mrs. Clarke volunteered with her husband as a private, fought through the battles of Shiloh, where Mr. Clarke was killed--she performing the rites of burial with her own hands. She then continued with Bragg's army in Kentucky, fighting in the ranks as a common soldier, until she was twice wounded--once in the ankle and then in the breast, when she fell a prisoner into the hands of the Yankees. Her sex was discovered by the Federals, and she was regularly paroled as a prisoner of war, but they did not permit her to return until she had donned female apparel. Mrs. C., was in our city on Sunday last, en route for Bragg's command. [Mississippian, Dec. 30.

Blankets and Supplies for the Soldier.

We are prone to forget that there are many a poor soldier, who are yet without blankets these cold, stormy nights. Warm ourselves, we are too apt to forget those who are in the field, suffering from exposure. We are informed that there is still a great lack of blankets and socks. If we look around our premises, cannot we find one or more carpet that can be spared; a few more pairs of socks? If so, let them be forwarded immediately to Mr. James Carradine's store. The soldiers are yet in want; let us respond to their wants, liberally and promptly.

A Day in Vicksburg. Under this head, our friend, Julius Aroni, Esq., edition of the St. Joseph (La.) Gazette has a very lengthy article, from which we make the following extracts. ... The Charm returned with the ladies to Vicksburg, and made another trip for our soldiers [pow's down on a transport for exchange], among whom we place above all others Dr. Moore, of Kentucky ... another fine looking prisoner was Capt. Morgan, brother to Gen. John H. Morgan, and we were delighted to see also our old--or rather young--acquaintance Charles Maine, formerly of Waterproof, now a Texas Ranger; but the most notable of all prisoners was a woman, now in female attire, who in soldiers clothes had followed her husband into Kentucky, found his dead body at Perryville, buried him with her own hands, took his place in the ranks, was wounded and taken prisoner and now exchanged. ...
We see it stated that there is a manufactory of cards in Georgia for carding cotton, wool, &c. This is a very necessary instrument of domestic economy and in great demand. We learn that after a few days our readers will be able to supply themselves with the article in this city. A very ingenious and worthy gentleman is now getting his machinery ready for manufacturing them, and within a week will be able to furnish a supply.--Mobile Tribune.

Protect and Cherish Your Defenders.

From a couple of our most reliable citizens, who have just returned from a visit to Port Hudson, we receive the most encouraging assurances as to the sufficiency of the works there erected, and in progress, for our defence [sic] against the Abolition Vandals of the North.

One other piece of information however we receive from them, most painful for us to hear, and unless we are totally unable to change it, almost disgraceful for this community to permit. Among the gallant band there congregated to meet the Abolition invader, are some troops from our sister State of Arkansas, in a most destitute condition. They are a portion of those, who under the glorious Price, came over to our protection east of the Mississippi, in a most destitute condition. They are a portion of those, who under the glorious Price, came over to our protection east of the Mississippi, after his and their names had become immortal by their bravery on the west of that stream. Some, not less than twenty-five or thirty, are said to be literally without shoes. Some have neither hats, caps or coats, and many besides being without shoes or socks are wearing pants literally worn into ribbands [sic] at the ankle. We know how much Adams county has done; we know too, the difficulty of doing more. Still, we rejoice to hear of one gentleman who will give fifty dollars towards relieving such distress, for distress it is, though unmurmuringly borne.

Shoes will be the great difficulty, and yet they are the most absolute and pressing need. A barefooted soldier! and he breasting the enemy's onset amid the inclemencies of winter, for the protection of all we hold most dear, from rapine, insult and ruin! Who, deserving the name of man can calmly contemplate the picture? We are sure every one of our noble hearted Southern women, will resolve such a state of things shall not continue one moment longer, if their exertions can effect a change. We have heard of modes by which these pressing wants of our gallant brothers may be relieved, and yet forbear to name them now, both for want of room, and because we wish not to forestall any other or better plan. Will not some of our public spirited citizens move in this matter? Will not the ladies of Natchez and Adams county take it in hand? One of our fellow citizens, Mr. Abbott, of the English Battery, who is here, will with pleasure take charge of, and distribute any such supplies. Still to secure prompt and effective action, concert of action is needed; and surely the appeal, in behalf of our Arkansas brothers, who stand between our dear ones and the fiendish enemy, will not be in vain.

Meeting the Crisis.
We have never witnessed a more laughable case of *meat*ing the crisis, than one day last week. A scarcity of cloth in the Confederacy has driven the house-wife to many an extremity. The servants, too, have had their share of trouble in fitting out their children with clothing, the past year. One of these instances we will relate. It is that of a fat, plump and robust little boy of probably four years, with a pair of breeches made from two canvas cases, from hams long since departed. The cases were neatly joined together, with button-holes and buttons in front, and the little fellow was marching down street as gay as a peacock, with his yellow breeches on, and red band around his cap. We was [sic] alone and could not help a hearty laugh; yet we felt that the crisis had been fully met in this instance by the duck-legged boy's mother in Natchez.

Hospital Supplies, &c.

We were pleased to meet in our office, yesterday morning, Mr. E. Kibbe of the Natchez Southrons, looking exceedingly healthy and with rosy countenance, after the fatigues of the great battle of Murfreesboro'.

Mr. Kibbe visits home in quest of hospital supplies, which are much needed at the present time in Chattanooga, Tenn. He gives good accounts of the kind and scientific manner our troops have been treated by the surgeons, but particularly mentions the professional gentleman who has bestowed much attention upon the Natchez Southrons, and other troops from this county.

He speaks of new hospitals about being furnished at Chattanooga, where care can always be given the sick and wounded.

So far as it lies in our power, we earnestly invoke our good citizens of Adams and the neighboring counties and parishes, to aid him with an abundant supply of hospital stores. Linen bandages, lint, preserved fruit, good old brandy and other liquids, are very necessary. All articles, for ten days to come, can be left at the store of Mr. Kibbe, on Main street, where they will receive prompt attention.

No one permitted to enter without a Ticket. To prevent any inconvenience from the crowd, officers will be stationed outside the door. Two Ticket Receivers at the door, and the Ushers within, to show persons their seats. The Music being sacred, and sung in a consecrated building, it is particularly requested that there be no applause or expression of emotion on the part of the audience.

The Gallery will exclusively appropriated to the Choir. No seats permitted in the Chancel.

It is to be hoped that the attendance will be large and the efforts of the gifted Amateurs, who have so kindly proffered the aid of their talents in behalf of our suffering soldiers, may be encouraged and rewarded by the presence of the intelligent and refined people of Natchez and its vicinity.

Tickets will be ready for sale at the places above mentioned on Monday, 19th, and can be procured at Nash's Music store on the evening of the Oratorio.

Cotton Cards.

Such being the demand, we promised to advise our readers weekly as to the progress of the manufacture of Cotton Cards in the State Prison, and the terms on which they can be obtained. We have no change to announce. The machine now in operation turns out twenty-four pairs a day, which are sold at six dollars each. Two other machines are nearly completed, and we learn that the increase will continue as rapidly as the machines can be made by the workmen, until about 300 pairs shall be finished daily. In the mean time, persons who furnish sheep and goat skins will have the preference, and next to them soldiers families. The latter absorb the whole supply at present.--Southern Recorder, Jan. 13.

To Mrs. Laura Wood and Ladies of Church Hill, Aid Society; to Mrs. Osborne Scott and Ladies of Bell Grove, Aid Society; to Mrs. Martha Key and Ladies of Fayette, Aid Society; Mrs. Griffith and Ladies of Rodney, Aid Society:

Ladies--With heartfelt gratitude, the Colonel, officers and privates of 1st Confederate Battalion, desire to acknowledge the receipts of your most generous and timely contribution, of blankets, socks, and various other comforts brought to them by their reverend friend and chaplain, the Rev. B. M. Miller. This being the first presentation of the kind made to the Battalion during their long service--coming to them at a time when they were made destitute by the burning of nearly all their baggage (by orders,) at Abbeville--arriving also at our camp, and bountifully distributed among the truly needy ones, only a few hours before the late storm of rain, hail, and snow--are circumstance, which, we are well assured will, when thus known to you, constitute your pious deed, a cause for gratitude to God. He it is, who has thus inspired you in common with the mothers and daughters of the South, to assist with all their powers, in securing our independence and our rights. By such acts you not only give substantial "aid and comforts," but inspire the soldier with feelings also, of yet more determined purpose to "do or die" in his country's cause. Ladies, we thank you, and we know not how better to express our estimation of the glorious work in which you are engaged than to quote, as ours also, the sentiment so beautifully set forth in the late message of our most excellent Chief Magistrate, where he speaks of the daughters of the South as "our noble women, without whose sublime sacrifices our success would have been impossible."

The adage that "necessity is the mother of invention," was never so fully illustrated as within the boundaries of this beleaguered and blockaded Confederacy. One after another wants have been supplied by industry and energy which at the beginning of the war were thought impossible except to Yankee ingenuity. We all remember how men's faces used to blanch when talk turned upon the supply of powder. Many feared that upon that rock the rebellion would be split and "go under." Who fears now of a scarcity of powder? Our resources for the best of powder will enable us to fight the Yankees until doomsday. Next week we were to be reduced to corn for food, for how could we get salt to cure meat? This question was asked in a country washed by the briney ocean upon two thousand miles of seacoast. We should be obliged to do without the great yet small convenience of lucifer matches, and keep our hearths always glowing with vestal fires for lighting our pipes and candles. Yet the Mobile blockade match factory turns out as good friction matches as villainous rebels deserve to have or care to use. There is hardly a branch of the useful arts which our people have not invaded and exhibited therein an aptitude, an energy and a success as unexpected as it was useful to the country and delightful to the friends of the cause.

We have lately seen a specimen of Georgia enterprise in the manufacture of water proof cloth. In pliancy, smoothness and durability, we are not able to distinguish it from the best productions of Goodyear in the old times of our provincial vassalage to the Yankee North. This cloth manufactured in Georgia, is made up in this city into all kinds of garments to keep out the water. [Mobile News.

The Richmond correspondent of the Charleston Mercury has the following:
Speaking of Vicksburg, I give you an instance of female heroism recorded in a letter from a friend, who reached the "City of the Hills" too late to take an active part in its defence [sic]. He is an officer of high character and undoubted veracity. He says:
"I must tell you of a feat performed by a young girl, as told me by one who saw it, on the day of the hardest fight. Her brother belonged to one of the batteries, and hearing that he was wounded, she started out alone and on foot for the battlefield; and against the remonstrances of
all who saw her, walked along the line of entrenchments and across an open field swept by a murderous fire of musketry, grape and canister, as if she had been going to church to show her new bonnet, to the point where his batter was. You can imagine that the men whom she passed did not fight the worse for the sight."

The Woman Soldier. The editor of the Winchester (Tenn.) Bulletin was lately in Atlanta, where, among other "novelties," he met with Mrs. ------ ---------, dressed up a la militaire, who had a furlough to visit Atlanta. This woman soldier is a member of the Louisiana cavalry, and "in for the war." She is about twenty years of age rather small, and tolerably good looking.--Her husband was killed at Shiloh, and she forthwith took his place in the ranks. She has twice been wounded in battle and in one of the battles taken prisoner, and regularly exchanged. We mention these facts as a part of the history of this war, let what may be said of the propriety of such conduct in woman.

A gentleman from Tennessee gives the Mobile Tribune a striking instance of the patriotic devotion to the Confederate cause of a lady (Mrs. Deborah Lansford) of Cherokee county, Mississippi. While on her death bed, with no hopes of rising from it; she superintended the making of ten pairs of woolen jeans pantaloons for Gen. Price's army. She was as earnest in this good work as though her salvation depended on it; and in her last moments, mingled with prayers, she enjoined on her husband that he should see the gift sent to its destination. Of course the injunction was religiously obeyed.

This kind of spirit animates thousands of matrons in Mississippi and Tennessee, and it demonstrates how deeply seated is the patriotic fervor of the women of the Confederate States.

Cotton Cards and Teeth.

The Mr. Berber, mentioned in the following notice from the Camden (Ark.) Herald, is the person who formerly lived in Natchez.
We had the pleasure of witnessing a few days ago, the working of Mr. Barber's machine for making card teeth. We shall not attempt any description of the machine, but will simply state that it is complete. We had not time to see the number it could make in an hour; but any person who has ever seen a sewing machine at work, can imagine how many can be turned out in a
given period, when informed that it makes about as many strokes to the minute as one of the fastest of them, and at every stroke a tooth is made. Mr. Barber deserves much praise for the energy he has evinced in getting his machine going, and for the perseverance, patience and ingenuity displayed in its invention—its being unlike anything every before used for a similar purpose. He draws his own wire, through plates made under his own direction; and perforates the leather with a machine of his own invention. In short, the card factory is a home invented, home made institution. As soon as Mr. B. can get a few pair put up to start on, he will notify the public to come up and supply themselves.

No Rum in Natchez.

The shades of night were falling fast,
When through the streets of Natchez passed
A youth, who muttering oft did say,
"By Jove! they've choked us hard to-day;"
"No rum in Natchez."

His brow was sad, his nose below,
Looked as if damaged by a blow;
And like a cracked old fiddle rung
The accents of that well-known tongue,
"No rum in Natchez."

Through parlor blinds he saw the blaze,
In shops beheld the gaseous rays,
On rocky pavements flashed the flame—
And from his lips a hiccough came,
"No rum in Natchez."

"Stupid, take care!" a dandy said;
"Don't jostle me. Look where you tread!
Nor soil my patent leather's pride."
But loud that damaged voice replied,
"No rum in Natchez."

"Beautiful!" a girl exclaimed; "no doubt!
O does your daddy know you're out?"
Tears filled his eyes, he gave a sigh,
And murmured as he wiped them dry,
"No rum in Natchez."

"Look out, old boy! be like a mouse,
You're near old Bill Shaw's station house!"
This was a Charley's farewell sweet,
A voice replied far down the street,
"No rum in Natchez."

Toward close of night, or dawn almost,
A Covy, hanging to a post,
Heard rising, nearly from his feet,
A voice which uttered through the street,
"No rum in Natchez."

There in the gutter, cold and gray,
Serene, but awful drunk, he lay,
And from his nose all purpled o'er,
A voice came like a snoot or snore,
"No rum in Natchez."

From Middle Tennessee.

An army correspondent of the Chattanooga Rebel writes as follows:
Our army is again in a good fighting trim, and the ranks rapidly filling up by the influx of absentees. I suppose it is better clothed, equipped and fed than ever before. The country is bountifully supplied with game, but the boys are forbidden to shoot, for fear of hitting some General's aid. These sweet-smelling, kid-glove-y, band-boxy, tea-cake-y, ottar of roses exquisites are as plentiful as gnats around a vinegar jug. But you must not construe my expression into any reflection upon the usefulness of this necessary appendage of our Gipsey [sic] life. It is true they dangle a dress sword gracefully, run handsome horses in dashing style, and smile most daintily at the ladies, yet it is no less true, they can tell the ragged, weather-beaten fellow that foots it with his gun and heavy knapsack, exactly what he ought to be. You can thus very readily appreciate
the field and scope of their usefulness, and the necessity of taking every precaution to protect
them from the weather and disagreeable inconvenience of camp life, and to guard against the
rudeness of bringing them in contact with unmannerly soldiers, and everything calculated to
grate harshly upon their tender sensibilities.

I have conversed with several intelligent and creditable gentlemen from Williamson
county in the last few days, and they bring melancholy tidings of the fate of her gallant people.
The country is being desolated. The abolitionists are burning and destroying houses, razing
fences, stealing horses, shooting cattle and hauling off all the provisions in the country, not even
leaving many families meat or bread enough for a single meal. They have broken up the
wagons, hoes, and plows, destroyed the harness, and every thing that can be employed in
cultivating the earth. The officers boldly proclaim that the people shall not raise another crop.
Citizens are robbed of their money, and their houses pillaged of every article of wearing apparel
and bed clothing, and their furniture and table ware broken and ruined by heartless scoundrels. I
was informed of three instances of my acquaintance, fair, modest, virtuous young women being
ruthlessly violated by the hellish ruffians. These are not pictures woven by fancy, nor the
creation of vague rumors, but facts attested by authorities that cannot be questioned. If
retributive justice is no myth of fancy, it surely is time now for an exhibition of its power. When
the men of the country are torn from their homes to fight for the Government, that Government
should take some retaliatory steps to protect their helpless families from the hands of the
incendiary and the ravisher.

A Thoughtful Captain and a Valuable Cargo.

Hammer, who arrived there a few days ago from Liverpool, via Nassau, bringing over from
England cotton cardings, or cotton rolls all ready to spin, sufficient for all the cotton
manufactories in North and South Carolina, Alabama, Georgia, and Tennessee to resume their
spinning and the manufacture of fabrics. This is a fact which has not been make known.

When our country friends learn that we are almost entirely without beef cattle, etc., in

Blackberry and Wine Cordial. We avail ourselves of the kindness of a friend to publish the following excellent receipt for making cordial. It is recommended as a delightful beverage, and as infallible specific for diarrhoea [sic] or ordinary disease of the bowels:

Receipt. To half a bushel of blackberries, well mashed, add a quarter of a pound of allspice, two ounces of cinnamon, two ounces of cloves; pulverize well, mix, and boil slowly until properly done; then strain or squeeze the juice through homespun or flannel, and add to each pint of the juice one pound of the loaf-sugar; boil again for some time, take it off, and while cooling, add half a gallon of best Cognac brandy. Blackberry Wine.--The following is said to be an excellent receipt for the manufacture of superior wine from Blackberries:
Measure your berries and bruise them, to every gallon adding one quart of boiling water; let the mixture stand twenty-four hours, stirring occasionally; then strain off the liquor into a cask, to every gallon adding two pounds of sugar; cork tight, and let stand till following October, and you will have wine ready for use, without any further straining or boiling, that will make lips smack as they never smacked under similar influence, before.

For the Natchez Courier.

She Was Kind to the Soldier.

She nursed the sick soldier,
    He will not forget
She gave him her blessing,
    She blesses him yet!
To world-hate and world-pride
    Alike she was blind,
She was kind to the soldier,
    And nothing but kind!

She spurned not his sorrows,
    The rags that he wore;
She saw that he suffered,
    She saw nothing more!
She cheered the sick soldier,
    When others forgot;
She was kind to the soldier
    When others were not!

When head-ache and heart-ache
    Had rendered him mad,
When others had saddened,
    This angel made glad!
To virtues and errors
    Alike she was kind;
She was blind to her own faults,
    And Christ will be blind!

She spurned not his sorrows,
    The rags that he wore;
The poor soldier's blessing
    Be hers evermore!
He will not forget her--
    So deep to her debt!
Christ, too, a Poor Soldier,
    Will never forget!

A very excellent company of Confederate Minstrels, will give a concert at the Institute Hall tonight. We have had nothing of this kind for some time, and it is hoped their laudable entertainment will be fully attended. The Selma, Ala., papers, and other journals in the Confederacy speak of their performance in the highest terms of praise. The Knoxville paper thus alludes to their performance in that place:

Confederate Vocalists: Notwithstanding the inclemency of the weather on last night, this company performed at Watts' Hall to a fine audience. Their songs were magnificent, their dances excellent, and in fact, we have not seen a more perfect company of negro delineators, and as their motto is "fun without vulgarity," it makes their performance more attractive. This company is composed of discharged soldiers from the Confederate army, and as they donate all of the proceeds of their performance, above actual expenses, they deserve in every instance a donation of $1 from every individual who can help a poor soldier. They perform again to-night, and we have no doubt that the performance will surpass that of last night, and that was magnificent.

Natchez, April 15th, 1863.

Mr. Editor Courier--Sir: Allow me a small place in your paper to return our thanks to the Ladies Confederate Aid Society, for the contribution to the Missourians who came to your city as exchanged prisoners; never were soldiers more kindly treated than since we entered your City; particularly the sick and wounded who were taken to private residences and ministered to with the tenderest care.

To the Ladies of Natchez we would say farewell; our duty calls us to a more active field, but wherever our lot may be cast, be assured that the hearts of our little band will swell with emotion of gratitude when we recall the many kind favors for which we are indebted to you.

The Concert Thursday Night.

The performance of the confederate vocalists was well attended Thursday night, and the whole audience appeared pleased and happy. Another entertainment was to have been given last night.

The whole proceeds of the first Concert summed up $479--of which, after paying expenses, $458 were paid to the 'Treasurer of the Free Market, for the benefit of Soldiers' Families in the city of Natchez.

It will prove a grateful donation towards the aid of a work so much needed; and the liberal feelings of the gentlemen by whose talents it was raised, will not be forgotten when the bitter struggle of the present war ceases. May Messrs. Frank, Mitchell, Conway, &c., meet with warm friends wherever they go. Surely, the soldier of the Confederacy will not forget them!

Wanted.

Hospital Stores, for the Jackson (Miss.) Hospital, where we are informed from the best authority in the world, that our brave soldiers are perishing daily for articles of nourishment. You that have these articles of luxury at home, cannot find a better opportunity to appropriate them. We will gladly take charge of all donations at this office, and forward the same.

Let us examine our store-houses, and see if there cannot be something done for the sick soldier. A valuable life saved by good nursing is an acquisition of importance to our army.
service. You that have a plenty, come forward and fill a box of hospital stores. Live a short time on hard food, that the brave soldier may recover again and enjoy his hard rations.

Tableaux, Concert and Supper.

Our friends in the city and county, will bear in mind the entertainment to be given in the vicinity of Green Wood Church, for the benefit of the Natchez Free market, for Soldiers' Families. The tickets are now out. Let them all be taken up, whether you can attend or not. There is every prospect of reviving the market again on a firm basis. You that have a plenty, remember the Soldiers' Families.

"Corn and Bacon for Soldiers' Families." "I have 400 bushels of corn that I will sell to the poor soldiers' families of Spalding county for one dollar per bushel; also, 2,000 lbs. of meat, at 40c per lb. R. H. Tooley.
"Griffin, Ga., March 28, 1863."
The above notice was posted by Mr. Tooley, a man of moderate means, who keeps a candy store in Griffin. He purchased these articles before the seizures, and now, with a generous liberality, while corn is selling in Griffin at $2 50 per bushel, and bacon at 80c to 90c per lb., he is giving relief to soldiers' families at the prices named in his notice. There are many whose means would better enable them to assist the poor, but who are slow to follow his example.

The Paper Question. The Montgomery Mail says:
After diligent enquiry we are able to present the following list of Paper Mills now in operation within the limits of the Southern Confederacy:
Alabama 1.--At Spring Hill, in Mobile county.
Georgia 3.--At Columbus, Marietta and Athens.
South Carolina 5.--One at Greenville and four others.
North Carolina 8.--Lincolnton, Shelby, Fayetteville, Salem, Concord and three others at
Raleigh, viz: Neuse River, Forrestville and Mantua.
Virginia 2.--Both at Richmond.
Tennessee 1.--At Knoxville.

It will be seen that there are twenty Paper Mills now in operation in the South, and there can be no doubt that they would be able to supply the newspaper demand if the materials for manufacturing paper could be obtained at reasonable rates.

Let all friends of the press and of self-reliant economy and of the use of our own resources, save all rags and other materials for paper and offer them for sale at reasonable prices.

It seems that some five or six other ladies were arrested with the daughter of Gen. Battle. The Winchester Bulletin says they were arrested for "passing the Federal lines without authority," and after a few day's imprisonment at Nashville, were sent up North to Camp Chase. The order arresting them, stated that they were to be imprisoned for the war. We have already noticed their arrival at Camp Chase. Those of our officers and men who have been captives in this bastile [sic], only can form a correct estimate of the horrible privations these ladies will be subjected to.

How a Man Feels in Battle.
There can be nothing more puzzling than the analysis of one's feeling on the battle-field. You cannot describe them satisfactorily to yourself or others. To march steadily up to the mouth of a hundred cannon while they pour out fire and smoke, and shot and shell in a storm that mows the men like grass, is horrible beyond description—appalling. It is absurd to say a man can do it without fear. During Hancock's charge at Fredericksburg, for a long distance the slope was swept by such a hurricane of death that we thought every step would be our last, and I am willing to say, for one, that I was pretty badly scared. Whatever may be said about “getting used to it,” old soldiers secretly dread a battle equally with new ones. But the most difficult thing to stand up against is the suspense while waiting, as we waited in Fredericksburg, drawn up in line of battle on the edge of the field watching the columns file past us and disappear in a cloud of smoke, where horses and men and colors go down in confusion, where all sounds are lost in the screaming shells, the cracking of musketry, the thunder of artillery, and knowing our turn comes next, expecting each moment the word "Forward." It brings a strange kind of relief when "Forward" comes. You move mechanically with the rest. Once fairly in for it, your sensibilities are strangely blunted, you care comparatively nothing about the sights that shock you at first; men torn to pieces by cannon shot becomes a matter of course. At such a time, there comes a latent sustenance from within us, or about us, which no man anticipates who has not been in such a place before, and which most men pass through life without knowing anything about. What is it? Where does it come from?

Substitute for Copperas.

To the Ladies: Copperas is composed of Sulphuric [sic] Acid, or Oil of Vitriol and Iron, and is called by chemists Sulphate [sic] of Iron. A better material for dyeing, and the one invariably used by dyers is called Acetate of Iron, and is thus prepared:

Take common vinegar, the stronger the better, put into it rusty nails, or any pieces of rusty iron, and let it stand several days; the vinegar will eat off or dissolve the rust, and when it ceases to act on the iron, pour off the clear liquor and use it as you would Copperas, and you will find it a much better article and cost you nothing.

"General Starvation," in Arkansas.

The following very pertinent remarks, from the Little Rock Democrat of a late date, are equally applicable to the doings of "General Starvation" and his piratical invaders further South.

The Starvation Policy.

"It has been known, for weeks, that the Federals in this State, as well as others, were destroying all farming implements, seizing all provisions and preventing the planting of crops, with the avowed determination to starve the people into submission. We supposed it might be possible that this was the vindictive cruelty of some cowardly commander, who vented his spite on women and children. But it is now certain that orders to that effect have issued from Lincoln's war department. In Phillips, Chicot, and other counties, where the Federals have a foothold they have and are burning all the fences, plows and farming utensils they find. They destroy the property of widows as well as of male citizens. They are sending thousands of women and children within our lines, destroying all the provisions they find, and preventing the people from planting. Out of many cases reported to us, is one of a widowed lady, at whose house a number of officers and men called and demanded their dinners. After having eaten, they told her that they had orders to seize all her provisions, destroy all the farming implements and fences and prevent her from having a crop raised. They left her a week's supply of provisions only. In Phillips county they killed every milch cow, shot down every hog and cut down fruit trees. In Chicot county, they have made a clean sweep. "This is not civilized warfare. It is a war upon women and children. It is a wholesale robbery and national murder. Yet so timid has been our policy that we have let these villains navigate our waters, because they protested against the barbarity of firing into boats. We have paroled jayhawkers whose hands and garments were covered with the blood of murdered patriots. We have forborne until forbearance has ceased to be a virtue, until it has ceased to be manly. ...

The Concert of the Relief Minstrels, last Friday night, was largely attended, and the performances gave general satisfaction. Where our people expected but little, they were happily disappointed, and received much that gave them a rare evening's entertainment. While the war has been progressing, our young men who are maturing for the active duties of the camp, have not been idle with their intellectual and musical attainments. The harvest for the poor of the city, on Friday evening, was also rich. Another Concert, at some future day, would prove acceptable and advantageous.

Coffee. This article, like bacon and some others, considered of "prime necessity," is gradually coming down from the elevated standard to which it had been advanced by the wants of the people. On Wednesday the best Java sold at public auction at $1 50 per pound, and yesterday the same article commanded only $1. Last week some heavy transactions took place in coffee, operators, relying on an anticipated rise, paying as much as $1 per pound. In this way, some $10,000 was disbursed by one party. Of course sales at present rates would net a heavy loss, and there does not seem to be much of a prospect of an enhancement in the future. Richmond Dispatch.

Highway Robbery by Women.

The Macon Telegraph of the 2d, contains the following:

A factory at Seven Islands, in Butts county, had loaded a wagon with seven bales of manufactured goods, and dispatched it by their customary driver, a trusty old negro, to Forsyth, for transportation upon the Macon and Western Railroad.  The wagon arrived at Forsyth in due time with only three bales, and the driver's story, (which there is no reason to doubt, as he identified many of the parties, and is also confirmed by circumstantial evidence,) is as follows:
When the wagon had progressed about seven miles on its journey, it was stopped by a line of twenty-eight women, drawn up across the road—the most of them armed with knives [sic] and pistols, and in the thicket close to the scene of action sat a man upon a stump, also armed with a double-barreled [sic] gun. The women called upon the negro to halt upon peril of his life, and then immediately commenced discharging the load of the wagon—cutting open the bales, as soon as they had taken as many pieces of cloth as they could carry away, made off, leaving Jim to proceed on his journey with the three bales left.

To Make Blackberry Wine.

An estimable citizen gives us the following recipe for making Blackberry Wine:
"Take equal portions of Berries and Water, say to every gallon of Berries one gallon of water; put them in a clean oak barrel or keg, having a faucet inserted a few inches from the bottom. Cover close and let it stand for 40 hours; then carefully draw off the liquid. To every gallon of which, add 3 1/2 lbs. of good brown Sugar. After the Sugar is well dissolved, put the liquid in another clean oak barrel or keg, until full, leaving out the bung; reserving a small quantity with which to keep the vessel full, as it ferments. Let it stand until the process of fermentation ceases; after which, insert the bung air tight. Place in the cellar, or some cool place, for six months; then bottle and seal up. In two months, you will have fine Wine.

To the Ladies of Natchez.

Permit me to call your attention to one deserving your ever ready sympathies. A noble, patriotic, devoted woman, a resident of this city, has lately returned home on a visit to her children, after an absence of two years, having followed her husband, a soldier, to Virginia,
where she has been incessantly engaged in ministering to the wants of the sick and wounded in the Hospitals, the tented field and on many a field of battle. She was actively employed in the above capacity in the fights before Richmond, at the second battle of Manassas, and at Sharpsburg, Md., marching with the army, having canteens of water strung around her, for the parched and thirsty, and with her haversack containing splinters, lint and bandages for the wounded. Having obtained a furlough to visit her home, she was stopped on the route and made a prisoner by Grierson's cavalry on their late raid; her trunk, containing all her wearing apparel, was burnt with the Railroad cars, her purse was taken from her, the contents torn into shreds and trampled in the mud. She was then made to march to Brookhaven, a distance of 125 miles, when she was released, with the thread of imprisonment during the war if caught again. Finding no conveyance, she walked to this place, and is now destitute; but cheerful, hopeful, resolute, and determined to return shortly to the army, and resume her duties as a "Ministering Angel," to the suffering soldier. Her name is Mrs. Spangler, and she lives near Brown's Sawmill.

To Prepare Wool for Carding.

At the present time, when wool is so much needed, it may be well to state a few facts, that are not known to all:
1. Wool sheared from sheep that are well kept is much the best.
2. When the shearing operation is to be performed it should be done by a skillful, practised [sic] hand, as wool that is cut up in shearing always falls out of the cards and is lost.
3. The sooner wool is washed after shearing the better. It should never be packed away in a close pile, and left to lie in that position, either washed or unwashed.

4. The washing operation is the most important of all. A few years ago a premium was offered in one of the finest wool growing regions of Kentucky, for the best mode of washing wool. The lot of wool that took the premium was washed after the following manner: It was thrown into a pot of boiling water, and kept well stirred just one minute by the watch. It was then instantly thrown out into water milk warm and washed, and then it passed through several tubs of water of common temperature, being washed all the while until it was thoroughly clean. The writer has seen the thing tried, and it works finely. Wool can be washed in this way without soap. But especial care must be taken that the wool does not remain in the boiling water longer than one minute, as it is in danger of being ruined. The philosophy of this quick scalding is to soften the gum, which is on all raw wool, so that it will wash off easily.

5. When the wool is washed it should be spread out thin at once to run, and kept stirred until it is thoroughly dried. It should never be allowed to get wet after it is put out to dry.

6. Wool that has been dyed should have the dye stuff washed out thoroughly. Wool should not be allowed to start to a carding machine, even in a damp condition. It should be entirely dry.

7. When wool has been well handled in washing it will have a glossy appearance in the sun, no matter what the color of the wool.

8. Some lots of wool will waste more than others in carding, and it is difficult to account for it. But clean wool that has been well handled in the manner above directed, should in no case lose more than one pound in eight or nine, and generally about one pound to ten.

9. But lastly, where there are no pains taken to fix wool up properly for carding, the owner should not complain, whether the rolls be few, or of an inferior quality. The wool should be lifted out of the boiling water with a fork made for the purpose with several prongs.

The Strawberry Festival.

Never within our recollection (since the ... war began,) did the people of this city and county gather with that apparent devotion to the Confederate cause, as on Friday night. Upon that occasion, all that makes home dear was there. Old men and ladies came forth in the commendable cause of the disabled soldier--the fairest and the wealthiest--youth equally, fair, and with moderate offerings--all gathered as one people, who were willing to sacrifice their choicest pearls for men and soldiers struggling in the cause of right.

The humble offering, with but three days' warning, brought to the festive board all that strengthens the inner man--not alone the luxuries of the table, that were equal to any that could have been set two years ago--but, the occasion was blessed by the kind, approving smiles of those whose devotion to the Confederate cause entitles them in all its primitive meaning to the noble name of woman--man's natural solace.

On that evening, we heard many comparisons in relation to Natchez and other cities of the Confederacy, by transient soldiers, which made us feel proud and devoted to the City of the Bluffs.

We noticed several Missourians, and gentlemen from other States present, who appeared delighted with the rich entertainment.
Columns could be written in description of the brilliant scenes of Friday night, but all this would prove superfluous, the great object of relief to the sick and wounded soldier having been obtained.

In response to the inquiry of a correspondent for a recipe for making canvass, a reader sends us the following: Take thick smooth strong cotton or linen cloth, wet it and while wet stretch and tack it on a frame. Let it dry, then take white lead and mix in linseed oil to the consistency of dough. Spread this mixture on the stretched cloth and smooth it with a palette knife, put it by to dry, and in a week it will be ready for use. Allow me to add, that if an interesting picture be painted on the cloth, it will form a cheap and elegant screen for the fire-place.

Liberal Festival.

We learn that the proceeds of the late Strawberry Festival amounted to near $4,000, for the benefit of the wounded and sick in the defense of Vicksburg. It was truly a liberal festival.

It is with great gratification the Committee make the above report and acknowledgment for contributions made to the Free Market, for the month just closed. They solicit the continuance of the contributions, especially in meal, meat, buttermilk and vegetables; and hope that others who have not yet favored us, will send in contributions. Contributions of meal should be sent in fresh, on Tuesday and Friday mornings, to prevent loss from spoiling. For the committee.

Mrs.. A. L. Wilson.

Turn an Ear to This Request!

We are requested to say, that Mrs. Glassburn will leave soon for Jackson, to resume the charge of a Hospital, and particularly wishes contributions of cotton and linen rags; jellies, preserves, wines, cordials, and anything that the sick will relish. She will wait a few days for these articles, if persons desire time to make them ready, although our soldiers need her attention now.

Contributions will be received at the store of Mr. A. J. Postlethwaite, Main street.
Let the request have a prompt response, and not read carelessly and neglect!

Contributions for Hospitals.
We are heartily glad to state that our call for Hospital supplies for Mrs. Glassburn, has met with a good response. She will remain until Monday next, and any appropriations for the purposes named will be gratefully received at Mr. Postlethwaite's store, until Saturday evening.

An exchange gives the following receipt to make cheap blacking:
To a tea-cup of molasses, stir n lampblack until it is black, then add the white of two eggs well beaten, and to this add a pint of vinegar or whiskey, and put in a bottle for use; shake it before using.

Straw Hats and Bonnets. The summer season is approaching when straw hats and bonnets will be in fashion. It is important that we should look about us and see what substitute we can provide for those we have heretofore had of Northern manufacture. A correspondent of the Edgefield Advertiser recommends selecting the finest and largest straw from the rye field for braiding straw; and gives the following directions for cutting and preparing it: "The rye must be cut while in bloom, cut as carefully as possible to prevent breaking, cut early in the morning and bundle it immediately, before the sun has much power on it. It must then be taken to a kettle of boiling water and each bundle steeped three minutes, then open the bundles and spread out to dry and bleach, a clear sun being almost indispensable to fine color. After it becomes properly dried, put into a bundle again, to be kept in a dry place where the dust cannot soil it.

Persons having a surplus of Buttermilk, will do a good service by leaving it at the Free Market.
In vegetables, we notice a wagon load which arrived after market hours. Send both articles forward early.
Corn Meal! Families can be supplied with fresh ground corn meal, at City price, by applying at A. Brown's Saw Mill. june10.

To Lieut. Douglass, of Texas, just from Richmond, we are indebted for Mobile and Jackson papers of the latest dates.
Positively the Third and Last Appearance of the Relief Minstrels! According to request, the Relief Minstrels will give another entertainment for the Benefit of Bishop Green, on Friday, June 12th. Tickets to be had at the Music store of W. Nash and Wm. H. Fox. Natchez, June 11.

Flour. 20 bags choice flour, just received and for sale, by the sack or retail, by B. Pendleton.

Adventures of a Young Lady in the Army.

[From the Mississippian.]

Among the registered enemies of the United States government, who have been recently sent across the lines, from New Orleans, there is now, in this city, a lady whose adventures place her in the ranks of the Mobile [sic–Mollie] Pitchers of the present revolution.

At the breaking out of the war, Mrs. Laura J. Williams, (the lady to whom we allude,) was a resident of Arkansas. Like most of the women of the South, her whole soul was enlisted in the struggle for independence. Her husband was a Northern man by birth and education, and a strong Union man. After Arkansas seceded from the Union, he went to Connecticut, he said, to see his relations and settle up some business. Mrs. Williams suspected his purpose, and finally she received information that he had joined the Yankee army. Possessing little of the characteristic weakness of the sex, either in body or mind, Mrs. W. vowed to offer her life upon the altar of her country. Disguising herself in a Confederate uniform, and adopting the name of "Henry Benford," she proceeded to Texas where she raised and equipped an independent company and went to Virginia with it as first Lieutenant. She was in the battle of Leesburg and several skirmishes; but, finally, her sex having been discovered by the surgeon of the regiment--the fifth Texas volunteers, to which the company had been attached--she returned to her home in Arkansas.

After remaining there a short time she proceeded to Corinth, and was in the battle of Shiloh, where she displayed great coolness and courage. She saw her father on the field, but, of course, he did not recognize her, and she did not make herself known to him. In the second day's fighting she was wounded in the head, and was ordered to the rear. She wrote to her father and then came on down to Grenada, where she waited for some time, but never saw nor heard from him.

She then visited New Orleans, was taken sick, and while sick, the city was captured. On recovery, she retired to the coast, where she employed herself in carrying communications, assisting parties to run the blockade with drugs, and cloths for uniforms. She was informed on by a negro and arrested and brought before Gen. Butler. She made her appearance in a Southern homespun dress. She refused to take the oath, told him she gloried in being a rebel--had fought side by side with Southern men for Southern rights, and if she ever lived to see "Dixie" she would do it again. Butler denounced her as the most incorrigible she-rebel he had ever met with. By order of the beast she was placed in confinement, where she remained three months. some time after her release, she was arrested again for carrying on "contraband correspondence" and kept in a dungeon fourteen days on bread and water. At the expiration of which time she was placed in the State prison as a dangerous enemy.

Her husband, it so happened, was a Lieutenant in the 13th Connecticut Regiment, and on
duty as Provost Guard in the city. He accidentally found her out and asked if she wanted to see him. She sent him word she never wanted to see him so long as he wore the Yankee uniform. But he forced himself upon her, tried to persuade her to take the oath, get a release, when he said he would resign and take her to his relations in Connecticut. She indignantly spurned his proposition, and he left her to her fate. When Gen. Banks assumed command he released a great many prisoners, but kept her in confinement until the 17th of May last, when she was sent across the lines to Madisonville with the registered enemies.

An article was recently published in the New York World in relation to the part Mrs. Williams has played in the war, but the above is, we are assured, a true account of her remarkable career. We understand she has attached herself to the medical staff of a brigade, now in this city, and will render all the assistance in her power to our wounded in the approaching struggle for possession of the great Valley of the Mississippi.

The Natchez Free Markets.

J. M. Baldwin--Dear Sir:--Many of our citizens are not aware of the fact that there are two Free Markets held in this city semi-weekly.

One at the warehouse of J. E. Pardee, Esq., for the families of soldiers. The other at the warehouse of Stanton & Stockman, for the poor of the city, who are not entitled to the benefit of the Soldiers Free market. This is under the management of a Committee of Ladies, who attend in person, to the distribution of the provisions. Fifty families are dependent on this market, and twice during the past month the managers have had the mortification to be without sufficient supplies.

By calling public attention to the above, you will afford the liberal citizens of the city and county an opportunity of contributing to the relief of many who are in want. S.
