To: Board of Regents, Texas Eastern University

From: James H. Stewart, Jr.

Subject: Administrative Notes

I. Phase II Construction

Work on Phase II construction was initiated on site by the Gordon Campbell and Associates, Inc. construction company last Thursday, May 19, 1977, the date on which the Phase II contract was executed. (A copy of the contract is attached for your information and files.) During the work days since that time, a significant showing has been made in the Phase II construction area because site clearing, of course, is being accomplished as the first work task.

II. 1977-79 Biennal Appropriations

Latest information pursuant to the Texas Eastern University Biennial Appropriations for Fiscal Years 1978 and 1979 indicates that our library will be funded at the $4,087,597 level with a notation that this only provides sufficient funding for Part A of this structure. Senator Peyton McKnight has advised that this will allow us to plan the $7,147,798 building from the beginning with the expectation that remaining funding will be made available during the 66th Legislative Session.

I expect to have final information on the other items in our appropriation (operating costs) later this week and therefore hope to furnish complete data on our appropriation to you with next week's Administrative Notes. It is important at this time that consideration be given to the fact that the Governor will be evaluating the Appropriations Bill in the near future and our work pertaining to Texas Eastern's interests, of course, needs to continue.
III. Campus and Building Committee Meeting

A meeting of the Campus and Building Committee has been scheduled for Wednesday, May 25, 1977 at 3:00 p.m. in the Board of Regents Room. An attachment provides information pertaining to the meeting.

IV. Report from Resident Engineer

Attached is a report from the director of physical plant and resident engineer for the week ending May 20, 1977.
