Subject: Administrative Notes

I. Educational Supply-Demand Survey

A brochure entitled A Summary of Educational Supply-Demand Conditions for Postsecondary Education in Texas now being distributed throughout the state by the Coordinating Board, Texas College and University System, is enclosed for your information. As I mentioned in Administrative Notes for July 11, 1977, this research was initiated through Governor Dolph Briscoe's request that the Coordinating Board conduct a survey relative to job opportunities in the state of Texas. Publication of survey results will be helpful in providing high school graduates and other citizens of Texas with information on the job market as related to fields of study at the postsecondary level and will serve as an important tool for Texas postsecondary institutions in the area of academic programming.

II. Progress Report on Fall Semester 1977 Enrollment

Headcount enrollment for the Fall Semester 1977 was 1,524 at 12:00 noon today. This is an increase of 1.33 percent over the final official enrollment of 1,504 for the Fall Semester 1976. Also, it is significant to note that there is a 6.5 percent increase in semester credit hours (presently 14,018) as compared to the 13,167 semester credit hours recorded for the Fall Semester 1976. Classes began today, August 29, 1977, with late registration continuing through September 6, 1977. I expect a considerable increase in enrollment by the end of our registration period. An official enrollment report will be made following the twelfth class day, September 12, 1977.

III. Parking Permits

Your Texas Eastern University parking permit for the 1977-78 year is enclosed. Please note the permit is to be applied
on the lower left corner (driver side) of the rear window. Additional permits will be supplied upon request.

IV. 1977-78 Student Handbook

A copy of the 1977-78 Student Handbook, published during the summer, is enclosed for your information. This publication will be utilized throughout the next twelve-month period for providing students with necessary information about the institution.

V. Report from Resident Engineer

Attached is a report from the director of physical plant and resident engineer for the week ending August 26, 1977.
