Subject: Administrative Notes

I. Appropriations for Ensuing Biennium

A copy of the portion of the General Appropriations Bill as enacted for Texas Eastern University by the 66th Texas Legislature is attached for your information. You will note that the appropriation for Library (Part B) funding is not included having been removed by the Conference Committee. Otherwise, funding for the various elements of cost did not change from information which was distributed by the legislature during the first two weeks of April. I should mention, however, that this enclosure represents action of the legislature as sent to the governor. Of course, the governor now has the entire appropriations bill under consideration. Hopefully, we will know of the governor's action pursuant to the appropriations bill in the near future.

II. First Summer Term 1979 Enrollment

Registration for the First Summer Term 1979 began Thursday, May 31, 1979 and will continue through today. Unofficial enrollment at noon today was 930, an increase of 4.1 percent over an enrollment of 893 at this time one year ago. The official enrollment report for the current term will be based upon enrollment for the fourth class day which is tomorrow, June 5, 1979.

III. Communication from Chairman of the State Board of Control

A letter which I received recently from the new chairman of the State Board of Control, the Honorable Robert H. Dedman, specifying certain new policies of the Board is enclosed for your information. The five categories of policy discussed in Chairman Dedman's letter are significant to state agencies and should assist the State Board of Control in achieving the stated goals.
IV. Report from Resident Engineer

Attached is a report from the director of physical plant and resident engineer for the week ending June 1, 1979.
