Updates due for '92-93 Faculty/Staff Directory

The News and Information Office is preparing to update the Faculty/Staff Directory for 1992-93. This year, information will be obtained directly from records on file and updated throughout the year in Personnel Services, thus saving time and paperwork by eliminating the need for each employee to fill out a form.

Employees who have not yet notified Personnel Services of any changes (such as a new home address, telephone number, etc.) should do so by Sept. 4. For those who have updated their personnel records, or whose listings in last year's directory still are accurate, no action is necessary.

INTERCOM

Interactive Television schedule expands

An expanded schedule of UT Tyler Interactive Television courses this fall — including an Interactive Television site in Kilgore — provides students in the East Texas region additional opportunities to save time and money while pursuing their higher education.

Initiated last year as a direct link between UT Tyler and Longview, students' strong response to the program has brought an expanded schedule of course offerings for the fall 1992 semester, and the addition of an Interactive Television site in Kilgore.

Interactive Television gives students greater flexibility in scheduling their classes, and reduces their travel expenses and commuting time. Through Interactive Television, students who live in the Longview and Kilgore areas have the option of attending UT Tyler classes at Maude Cobb Center in Longview or Kilgore College in Kilgore, via a two-way linkage to UT Tyler, or at the UT Tyler campus where the class originates. A panoramic camera, a large television and sensitive sound allow complete two-way communication between each location.

INTERCOM is published every other Monday (excluding holidays) during fall and spring, and once monthly during summer sessions, for UT Tyler faculty & staff. Deadline for written material is Wednesday before publication in the News and Information Office, ADM 221.
