## State Employee Charitable Campaign debuts

The new State Employee Charitable Campaign debuts this fall with two important features never offered before to university employees.

### TOGETHER WE CARE

For the first time, employees may make charitable contributions by having their donations deducted conveniently from their pay checks each month. At the same time, employees still have the option of making contributions in cash, check or by bank draft.

Secondly, in addition to United Way agencies of Tyler/Smith County, university employees are offered a larger number of charitable organizations at the local, state and national levels to which they may make contributions. With more than 200 charitable organizations participating at the statewide and local level, the State Employee Charitable Campaign gives employees a variety of charities from which to choose.

When state employees choose a participating organization, they can be sure that the organization is legitimate and will use the contributions wisely and effectively. Participation in the State Employees Charitable Campaign is voluntary and confidential.

"Together We Care" is the theme for this year's State Employee Charitable Campaign. UT Tyler's campus campaign begins Oct. 4.
